LOADING THE GAME

The loading instructions appear on the label of the cassette.

PLAYING THE GAME

Your objective is to seek and find the legendary "GOLDEN DRAGON". En route you must collect 12 power crystals and destroy 3 reactors. You must investigate many rooms of the map in order to find all of the elements of the game.

Energy is lost by colliding with creatures, walls etc. and may be gained by solving puzzles or collecting the power crystals.

Losing energy rapidly causes you to be transported away from the danger and zero energy results in a lost life.

You must complete the Quest without reincarnation in order to see the final congratulatory message.
