For Superior Computer Performance:

- If you have a screen-saver installed on your computer, turn it, as well as other INITs, off
- Restart your computer

Strategy For Retrieving The Cyberplasm Formula:

- Click on different areas of the screen to move the characters
- Pick up helpful items and store them in Yondo's backpack
- Click on the triangle at the bottom to open Yondo's backpack and select items to use during the adventure
- Listen carefully for clues
- Keep power level from falling to zero or the adventure will be over

Hints To Heed During The Adventure:

- Robots don't have magnetic personalities
- The Kind can help you rise to great heights
- Wine can loosen more than tongues
- Don't squander your money on treats
- The smart Archivist finds work for idle hands

Good luck, Archivist.

Victor Vector & Yondo, your fearless field agents, are standing by.

Getting Started:

Before beginning the adventure, be sure to read the inside of this brochure for helpful information. If you are using a Windows™ computer, follow these instructions for installation:

1. Run Windows
2. If you are not running Windows in 256 colors, you need to change the screen driver in Windows Setup (If you're unsure how to do this, refer to your Windows manual) Although you can use any screen resolution, the program will run at full size if you choose 640x480; Now restart Windows
3. Insert the disc into your CD-ROM drive
4. From the Program Manager menu, choose File: Run and enter the following line:
`D:/SETUP.EXE`
If your CD-ROM drive designation is not D:, use the appropriate letter instead
5. SETUP will create a Sanctuary Woods group in Program Manager and an icon for the adventure;
Double-click on this icon to begin
