## FIVE NEW 'ENTERTAINMENT' RELEASES

### LA LAW

Developed by a lawyer and adapted from actual cases used in the hit TV show, LA LAW: The Computer Game delivers a realistic glimpse of the human drama, mysteries, puzzles and intrigue played out in the law offices and courtrooms of Los Angeles...and throughout America. Your pretrial efforts are judged in realistic courtroom scenes with digitized photos direct from the popular television series. Eight challenging cases with new twists each time you play. IBM: 640K, HD, EGA/VGA, SB, RL, AL, SM, PCS, Mouse.

### Trolls

From the shelves of a toymaker's workshop comes the fantasy-like World of the Trolls. Let your imagination flow freely...like the colorful hair on your troll...as you race through wondrous lands bursting with detailed animation and spectacular backgrounds. Help your troll escape from bouncing dragons and evil hedgehogs. Hitch rides on ferris wheels and friendly clouds. Slide to safety on slippery snakes. Soar over sparkling waterfalls. And swim past giant jellyfish and electric eels in a bubbling ocean of cherry soda. Only a truly terrific troll will triumph. IBM: 640K, 10 Mhz, EGA/VGA/MCGA, AL, SB, PCS, Joystick.

ENTERTAINMENT

### Home Alone 2

Play ever-resourceful Kevin, alone in "The Big Apple" with those two Wet Bandit burglars in constant pursuit. Lead Harry and Marv on a series of rollicking chases through crowded city streets and other locations. Banana peels, garbage can lids, ketchup bottles, Monster Sap and dozens of other everyday objects come into play in this animated comedy with fourteen levels of full-scrolling game play, including digitized pictures from the movie. It's fast-paced action and frolicking fun for the entire family. IBM: 640K, VGA/EGA/T, SB, RL, AL, SM, PCS, Joystick, Mouse.

### Terminator 2 — Cyber Chess

Enter the mind of the T-1000 cyborg from the blockbuster movie hit as it takes on it's futuristic arch-nemesis in the ultimate game of logic. A battalion of 3D killing machines await your command to lead them to victory...or devastation...in a deadly Super VGA display. Say goodbye to "Checkmate" as the traditional game of chess is transformed into a multi-level war zone, where the champions cry "Hasta la vista, Baby". IBM: 640K, HD, 2 Megs EXT/EXP, VGA/SVGA, RM, SB, AL, Co, DS, PCS, Mouse. CD-ROM coming 1st quarter 1993!

### Wayne's World

Join up with those infamous late night, public-access TV stars, Wayne and Garth, on a hilarious quest to save their show from a most bogus cable executive. Along the way, ride in the Mirthmobile with Wayne and Garth's mental friends, save beautiful robo-babe Cassandra, avoid psycho-hose-beast Stacy and help the boys become incredibly humungoid, giant stars. Chi-Ching! With your help the bad guys are sure to win....NOT! Coming 1st quarter 1993!

## Home Alone

Based on the mega-hit movie, Home Alone puts you in the role of 8 year-old Kevin, trying to foil the break-in of two inept burglars. In this two-phase action game, first you must rush throughout the house, creating traps and pitfalls; and then lure the burglars into a wacky chase through your clever contraptions as you protect your home...alone. Comic twists and infinite variations, plus digitized pictures and sounds from the movie, will make Home Alone the computer game, a sure-hit, family favorite. IBM: EGA/VGA, 640K, AL, RL, SM, SB, Joystick, Mouse. Amiga: 1 Meg, K.

## The Taking of Beverly Hills

Based on the movie, The Taking of Beverly Hills, this action-adventure computer game thrusts you in the role of football star Boomer Hayes, trying to thwart the raid of Rodeo Drive. Can you stop the theft of a priceless Botticelli fresco and free Laura from the ruthless billionaire, Masterson? Beverly Hills is up for grabs and it's up to you to stop the fiery frenzy...and stay alive! IBM: EGA/VGA, 512K, AL, SB, Joystick, Mouse.

## Bill & Ted's Excellent Adventure

For a hilarious, time-warped trip through history, this fully-animated arcade action game recreates all the fun of the hit movie. It's a bodacious romp in search of "famous dudes"...Napoleon, Socrates, Ghengis Khan, Freud, Joan of Arc, Lincoln, Einstein and more...in a quest to pass that most heinous history exam. Digitized photos and sound from the movie add to this outrageous adventure. IBM: CGA/EGA/T with 384K, VGA with 512K, Joystick, AL. Amiga: 512K, K. C-64: Joystick.

## An American Tail

Based on Steven Spielberg's animated movies, this side-scrolling graphic adventure stars spunky Fievel Mousekewitz, a clever young cartoon mouse. Fievel takes on the cats and vermin of the mean streets of New York, then heads west to foil the giant mousetrap built by outlaw cowboy cats. Graphics, animation and sounds from the movie add to the fun. IBM: 640K, EGA/VGA, AL, RL, SM, SB, PCS, T3, Mouse, Joystick. Amiga: 124K, K.

## The Dark Half

Thad Beaumont's evil twin, George Stark, has returned in this thrilling graphic adventure based upon a Stephen King novel. As Thad, a successful horror writer, you are drawn into the psychological mystery behind your evil twin as he commits crimes and murders for which you are blamed. To defeat his evil forces, you must dodge the police, uncover clues and discover the secret of THE DARK HALF. Only then can you prove your innocence, save your family, and silence George Stark forever. IBM: 640K, VGA, AL, RL, SM, SB, PCS, T3, Mouse.

## Search for the Titanic

Experience the challenges and excitement of scientific underwater exploration as you go on the quest to find the world's most famous lost ship. Reviewed for authenticity by the Woods Hole Oceanographic Institution, who first discovered and photographed the Titanic wreck, the program contains digitized pictures from actual photos of the Titanic. The game includes over 75 wrecks to explore, more than 100 navigational maps and charts and 47 ports of call. Realistic weather patterns and currents, sonar, underwater cameras and minisubs all come into play as you begin your search. IBM: 256K, CGA/EGA/VGA. C-64.
