

Acheton

for the BBC Microcomputer

Hints and answers

Here is a list of questions commonly asked about Acheton. To make it impossible to see any solutions accidentally, only hint numbers have been given. To see the hint, load the program as usual but users with 40 track drives should leave the Program disc in the drive while the Space Bar is pressed and users with 80 track drives should insert the 80 track Hints disc before pressing the Space Bar. You will then be prompted to give the hint number. If you are in any doubt as to which of two hints to look up, it is suggested that you choose the hint with the lower number.
