INCA CURSE

You are in the heart of a South American jungle near an ancient Inca temple. Inside this temple there is a huge hoard of treasure. Your aim is to enter the temple and get out again but with as much treasure as you can. Greed could work against you! You are a winner when you have returned to the jungle safely with your treasure. Few survive, but none to our knowledge with more than 3200 points worth of treasure.

You may load and save a game at any point of play. To save a game, you QUIT. The computer asks you if you want to save this game. A yes response, Y, brings READY CASSETTE to the screen. Start your tape on the record made and type any key. It takes 2 seconds to save your game.

To play a previously stored game, you are asked if you want to when you run the regular program. If you answer Y you are asked to READY CASSETTE. Cue up your tape, press play on your recorder and hit any key. The game will continue from where you left it.
