COMPUTER SOFTWARE

There's only one opinion that really matters in the future of computers and how we use them . . . Yours!

Making computers accessible to everyone was once only a vague hope of the future. Now it has become a reality which is even now dramatically changing our world, making it a better and more enjoyable environment for everyone. That's why DATASOFT needs your help in choosing the products of tomorrow.

Helping to shape the future can be as simple as filling out the few short questions which you'll be sending in with your warranty card. (Just drop it in the mail . . . we'll pay the postage.) Your ideas will help us in selecting the products that will become the most useful to you.

In return for your help, we'll be able to keep you up to date on what we're doing now, and what we're planning for the future. We'll even let you in on sneak previews of our new releases.

You have the ideas which can help shape the future, and DATASOFT is ready to listen!
