

AGE OF ADVENTURE

ATARI

Getting Started

Age of Adventure is a double-sided disk containing *Ali Baba and the 40 Thieves* on Side 1, and *The Return of Heracles* on Side 2. If you plan to save games in progress, you should have a blank disk available when you start either game. The program will format the disk when you save the game.

Plug your joystick into port 1 and remove all cartridges. Turn on the disk drive. When the busy light goes out, insert the disk in the drive. Make sure the side containing the game you want to play is face up. Close the drive door and turn on the monitor and the computer (Atari XL and XE owners: when you turn on the computer, hold down the **OPTION** key until the Electronic Arts logo appears). The program loads and runs automatically. While Heracles is being loaded, you'll be asked to "Press Y if this is an old CTIA Atari." If you own one of the very first Atari home computers, press Y.

NOTE: in Age of Adventure the **SPACEBAR** and **RETURN** keys are interchangeable, and you can use one in place of the other.
