WHO WE ARE:

Since 1979, Computer Ribbon Specialists (CRS) has met the needs of the data processing industry by providing quality reinking and recycling. CRS offers a complete line of word processing and data processing printer ribbons. In addition, as a major distributor of NEW computer ribbons, CRS can either expertly recycle your used ribbons or meet your need for new ribbons.

WHY RECYCLE?

•SAVINGS:

Recycling ribbons gives you NEW ribbon quality at the lowest possible price; also, ribbons can be ordered in quantities to fit your needs. Recycling can save you as much as 50% of new ribbon costs.

•QUALITY:

All recycled ribbons meet or exceed OEM specifications. There is NO REDUCTION IN QUALITY.

•CONVENIENCE:

We help you control your inventory with our built-in reordering system. You know exactly what your ribbon stock is at all times and ribbons are automatically restocked according to your usage needs.

WHAT IS RECYCLING?

Only the plastic parts of your ribbon are actually "recycled." Your used ribbon will either be *respooled* with new nylon for a spool ribbon, *restuffed* with new nylon or film for a cartridge ribbon, or *reinked* for a wide line ribbon.

TIME INVOLVED?

Approximately one week, from the time we receive your ribbons to the time they are repackaged for return. All ribbons are returned by UPS unless otherwise specified.

MAKING IT WORK FOR YOU:

Contact CRS today. Then send your used ribbons to:

**Computer Ribbon Specialists
1108 Summit Ave., Suite 6
Plano, TX 75074**

Mark all boxes "Ribbons for recycling."
Include the following information:

- Number of ribbons in each box
- Your company name and address
- Your company contact for receiving the recycled ribbons.

In a rush? Call us for special arrangements.

(Computer Ribbon Specialists can recycle most cartridge, spool and wide line ribbons. However, to verify that your order can be filled to specifications, call before sending ribbons. Computer Ribbon Specialists is not affiliated with any company listed in this brochure.)

CRS ALSO OFFERS:

- OEM Brand NEW ribbons at reasonable prices.
- Generic brand NEW ribbons.
- Over 300 ribbons to choose from.
- All CRS products are fully guaranteed.
- Complete personalized service for the small, medium or large account.
- Experienced, knowledgeable customer service representatives to answer all your questions and fill your ribbon orders promptly and accurately.
