Read Me First!

This is a preliminary release of "The Dungeon Master Survival Kit." Because of the many requests Elkon Enterprises has received for EDITORS and MAPS, we have decided to release this disk even though we are still working on the walk-thru. The "Chaos Strikes Back" walk-thru will be on the upgrade disk.

This is a SELF-BOOTING disk but you must set your individual printer preferences on this disk. (Refer to your Amiga Manual if you are unsure how to set your printer preferences.) To print any of the maps on this disk, simply press the "P" key.

FREE UPGRADES will be available to REGISTERED OWNERS. Do not neglect to return your warranty card. You will be contacted with further details concerning the free upgrade, or you may call our support BBS at 817-696-2644 for upgrade information.

Elkon Enterprises
