

# ***GREAT SAVINGS ON OUR GREATEST GAMES!***

Now you can enjoy Infocom's most popular games in our new, specially priced and packaged Solid Gold series. You get all the challenge and fun of the original, plus everything you need to play – including on-screen hints. If you missed these classic games the first time around, don't pass up this Solid Gold opportunity to get them now for only \$14.95. See inside for details!

G-947-13

# The classic titles of the Master Storytellers are yours for only \$14.95!

"...the nearest any piece of software has got to a pint of Guinness. Fills you up, has unbeatable flavour and is, of course, pure genius. The funniest game ever penned."

—Zzap!

Don't even *think* of intergalactic travel without THE HITCHHIKER'S GUIDE TO THE GALAXY in your pocket. With Ford Prefect, Trillian, Marvin, Zaphod Beeblebrox, and your trusty towel (yes, towel), you can forget that Earth was bulldozed to make way for a new hyperspace bypass and enjoy your cosmic misadventures. Created by Douglas Adams and Steve Meretzky, this game is packed with the most fiendish puzzles ever devised by twisted minds.

"If it's 2 in the morning, this must be Zork. Not even Ted Koppel can keep the nation up so late."

—Washington Post

The original. The classic. The adventure that started it all. Set your wits against diabolical puzzles, unexpected challenges, and unearthly intrigue in your search through the Great Underground Empire for the treasures of Zork. This is no ordinary treasure hunt, no run-of-the-mill adventure story. This is the ultimate test of your mental and gaming abilities. By Marc Blank and Dave Lebling.

"Planetfall is just about worth the price of a computer."

—Memphis Magazine

You joined the Stellar Patrol ("It's not just a job — it's an adventure!") to explore the galaxy, but so far all you've seen is the end of a mop. That is, until your ship blows up and you land on the strangely deserted planet of Resida. There you meet Floyd, your robot companion who's partial to graffiti and the death scene from *Carmen*, and embark on an outrageous enterprise to save the planet from destruction. Author Steve Meretzky teleports you through one of the funniest adventures on computer.

"Wishbringer is without a doubt one of the top three beginner's interactive fiction games. Witty and dangerous, it's sometimes even downright silly."

—Commodore Power/Play

Your day as a junior mail clerk in the simple village of Festeron begins normally enough. But once you make your way to the eery magic shop on the outskirts of town to deliver a supernatural ransom note for a kidnapped black cat, nothing remains normal. Festeron is now populated with trolls, piranha, vultures, and poodles-turned-hellhounds. You have until dawn to find the missing cat, discover the mystical Wishbringer stone, and restore peace to your community. By Brian Moriarty.

"Leather Goddesses of Phobos is a lewd romp through the pleasure palaces of the solar system..."

—Upper Sandusky Daily Chief-Union

When you stepped into the rest room at Joe's Bar in Upper Sandusky, Ohio, you probably had something other than spontaneous intergalactic travel to a Martian moon on your mind. No matter: you're now a prisoner in a brass bikini, and the fate of Earth lies in your hands. Can your sense of adventure, puzzle-solving skills, and libido save the planet from the lascivious clutches of the scheming Leather Goddesses? Steve Meretzky's ribald adventure can be played in Tame, Suggestive, or Lewd (no one under 18 allowed).
