SPD A2.87.00

DIGITAL distributes this software product under license from Infocom, Incorporated.

DESCRIPTION:

The ZORK® TRILOGY is a Prose Entertainment Package developed using an Artificial Intelligence Language called INTERLOGIC tm. INTERLOGIC allows the creation of the entertainment software in such a way that the user carries on a free format, textural conversation with the software. The user is able to interact with the program using complete sentences rather than two-word commands with a greater vocabulary and more command options.

The ZORK TRILOGY consists of three Entertainment Adventure Packages, each challenging the user with obstacles while attempting to achieve the specific goal of the program.

ZORK I "THE GREAT UNDERGROUND EMPIRE" - The user must discover the twenty treasures of ZORK and escape alive.

ZORK II "THE WIZARD OF FROBUZZ" - The user is confronted with the Wizard, who will attempt to confound the user's quest with his capricious powers.

ZORK III "THE DUNGEON MASTER" - The user encounters the Dungeon Master and must fight to secure a destiny.
