

# AdLib SOUND

## Hear what made AdLib the standard in PC sound!

- If the "bleep, bop, zz" coming from your PC's speaker is boring your mind and your ears, listen up!
- The AdLib Card is here to make your favourite Action, Adventure, Role Playing, Arcade, Simulation and Fantasy games come alive with unbelievably realistic music and sound effects - even speech.
- How good is the AdLib sound? Well, bullets don't just pop - they BLAST! Engines SCREAM. Swords RING and Monsters ROAR. There's courageous music for the faint of heart, and funeral dirges that are sure to make your loved ones weep!

# What is Ad Lib?

- The AdLib Card creates mind-blowing sounds and music with its 11 different FM synthesized voices. They can reproduce everything from bass drums and bullet-blasts to trumpets and tornadoes.
- The AdLib Card is easily inserted into a free expansion slot. Installation is effortless with easy to read instructions included.
- The half-size card can play up to eleven different instrument sounds at the same time. But don't be fooled by its small size, AdLib can play the full range of instruments: everything from pianos and electric guitars to snare drums, cymbals, voice and game sounds.

● The AdLib Music Synthesizer Card comes with the AdLib Juke Box Playback Program and a rousing assortment of original songs as well as a few old favourites. Just pick a song title, turn up the volume on the built-in amplifier, and get your ears ready for the sound experience of a lifetime.

● With the AdLib Card you can take advantage of enhanced soundtracks in products from over 80 of the world's top software developers including:
