STAR LEGIONS™

Formerly entitled "Legions of Krella"... The latest release from the creators of "Star Fleet" is the ultimate real-time space war simulation. As commander of the Imperial Empire's all-powerful invasion fleet, your orders must be as diverse as the planets you must conquer. A vast arsenal of battle troops, weapons, and war ships are at your control. Scan the progress of your maneuvers from the mother ship using any one of four different planetary viewpoints. As enemy worlds fall, you move closer towards the Empire's most honorable rank – Imperial Tribune !

Available 10/92 • \$59.95 Suggested Retail Price

The Magic Candle III

The latest version of MINDCRAFT's award-winning role playing game. Your hero will traverse from Gurtex to the Solian Lands of Kabelo, Illorio, and Tasuria. New companions can be invited, or use the added character generator to create your own worthy travellers. An expanded repertoire of magical powers must be used to confront the new evils you will encounter in your adventures. All new graphics and animation. Previous exposure to Magic Candle games not a prerequisite for complete enjoyment!

Available 11/92 • \$59.95 Suggested Retail Price

TEGEL'S MERCENARIES

"Tegel's Mercenaries" is a futuristic real-time war strategy game with unique role-playing components. General Tegel has appointed you squadron leader of a crew of 20 space mercenaries. Each has a distinctly different set of abilities, personality, and psychological profile. As you receive the top-secret details of each mission, you must select which mercenaries to deploy and which weapons and supplies to transport. The squad will talk and interact as they proceed with your orders. The "SKWID" Scenario Kit & Working Interface Developer lets you devise your own bracing missions!

Available 10/30/92 • \$59.95 Suggested Retail Price

DOGS OF WAR

An exciting new add-on for those who own the MINDCRAFT best seller "Siege". Many newly detailed scenarios, featuring 6 additional castles to negotiate and more monsters to confront. An advanced, more challenging AI to combat your strategic commands... New modem capability allows the user to match wits against another human attacker or defender. Specially priced expansion has both 3.5" and 5.25" IBM formats included in one package.
