Great British Software

Commodore 64/128™

Why We Created this Multi-Game Package:

First, there was the American Revolution. Now, there's a computer revolution going on and the British are trying to get even!

This collection of great British software represents some of the bestselling games in the UK. Consider it a modem connection across the ocean. We hope you enjoy this sampling of high-tech "fish 'n' chips."

REVELATION

(joystick required)

BRIAN BLOODAXE

(joystick optional)

QUOVADIS

(joystick required)

Mindscape, Inc. is an electronic publishing subsidiary of SFN, one of the country's leading educational publishing, information, and communications corporations. Mindscape is dedicated to the production of superior software for today's microcomputer technology that combines the best in entertainment, personal productivity, and educational value. Our products stretch the limits of the computer; the result: software that challenges the mind.

THE EDGE

BRIAN BLOODAXE REVELATION QUOVADIS

(joystick optional)
It was pretty late in the week, probably Thursday, when Brian got bored. Brian decided to better to do, Brian decided to invade Britain. Unfortunately, everyone was either at a meeting or out to lunch at the time. Not to be put off, Brian set forth to conquer. Over 100 screens, each presenting a unique and mind boggling puzzle, stand between Brian and his goal of finding the Crown Jewels and sitting on the Throne with them. That's all we'll tell you — we won't even mention the penguins...

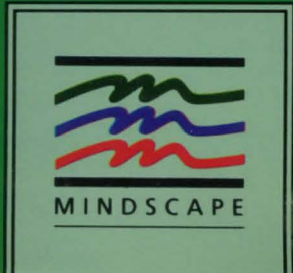

(joystick required)
The Monster of the Apocalypse awaits you in the final cavern. You, the bravest of the brave, and your faithful phoenix must get through the 45 caverns of death to a final confrontation with evil. On this quest so terrible it defies description and with a companion straight out of the legends of antiquity, you journey through a strange land of sorcery and danger. There are pits and traps, and evil creatures and deadly towers to destroy with your mystic lance of sorcery and danger. Should the monster be crowned and win the Sceptre of Hope, the world will end! Over 400 different smooth-scrolling screens challenge your every move as you journey onward toward the final, stunning **Revelation.**

(joystick required)
Your quest: Find the Sceptre of Hope and learn the Words of Power which will make its powers real. You alone can defeat the Dark Lord and free Humankind from his Shadow power in this arcade/adventure game boasting a playing area of more than 1000 screens. Evil creatures and riddling clues block your path at every turn. Good Luck...
