When it comes to entertainment software, you'll find Accolade in motion creating the finest and most imaginative computer games on the market today.

Whether your favorite genre is sports, driving, role-playing, science fiction or graphic adventure, Accolade has a great game for you.

From the soaring drives of Jack Nicklaus to the towering home runs of HardBall III — from the blazingly fast Formula One cars of Grand Prix Unlimited to the white-hot space combat of Star Control II — Accolade pours on the excitement.

We pour out our hearts, too, with children's games like our warm and funny SNOOPY's Game Club.

Accolade is proud that so many of the titles in our constantly growing library have won critical acclaim for their realistic simulations, graphic excellence and absorbing gameplay.

Yet it is our minds in motion — the creativity and dedication of our Accolade staff — that is our greatest pride. Our people care deeply about the quality of our products.

Accolade in motion means we're constantly expanding the envelope of creative excellence, striving always to bring you the very best in entertainment software.

- ★ Play features so real you can almost smell the grass
- ★ The first 256 color VGA Course Designer — with “Plot-N-Play” feature
- ★ Compete with up to 1.5 million members on Prodigy® in their tournament section
- ★ Track your progress with real golf stats, updated after each round
- ★ 2 Nicklaus designed courses and compatibility with Accolade’s library of courses — plus access to hundreds of user-designed courses through our bulletin board

Jack Nicklaus Golf & Course

No other golf game ever designed has as many features or is as much fun to play as *Jack Nicklaus Golf & Course Design: Signature Edition*. ▲

Wait until you get your hands on the all-new 256 color VGA Course Designer where you can create super-realistic

courses. The incredible detail includes digitized horizons, trees and objects, plus smoothly bit-mapped fairways, greens and bunkers. And the Plot-N-Play feature allows you to create a hole and play it instantly.

Track your progress with real golf statistics, updated after each round. The amazing

realism extends to digitized sound effects and crowd noises, varying club trajectories, animated flagsticks and real rolls and bounces.

You’ll play two great Nicklaus designed Pro Tour courses — the English Turn Golf Club in New Orleans, home of the USF&G Classic and the rugged Sherwood

Al Michaels Announces

★ **Play-by-play commentary by famous broadcaster Al Michaels**

★ **Numerous statistics you can print out**

★ **Play an exhibition game, a full season — even the all-star game**

★ **Accurate renditions of eight major league ballparks**

★ **VCR-like instant replay, Highlight Reel and close-ups**

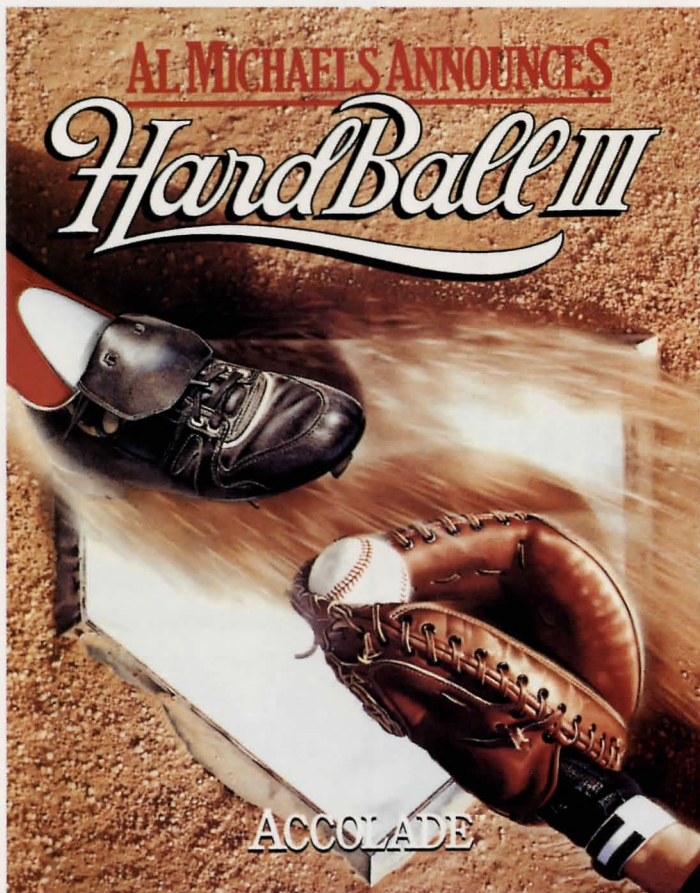

★ **Create teams and customize players, logos and uniforms**

The third game in the best selling baseball series ever, *HardBall III* offers unmatched simulations, stunning graphics and play-by-play commentary by Al Michaels.

Al has a distinct broadcast style all his own. When he announces a game, you get drawn

into the play, feel the tension on the field and the excitement among the fans.

Al's voice adds greatly to the realism as your players hit, run, field and steal bases. A unique "Team Effort" feature means teammates back you up on a play. And your pitchers can throw

HardBall III

everything from fastballs to sinkers.

Instant replay, life-like animation, crowd noises and a wide choice of authentic ball-parks make *HardBall III* so realistic it's almost as if you're part of a live game.

The Player & Team Editor feature allows you to create your

own teams, with real ballplayers' names and skills. You can even design your teams' logos and choose uniform colors!

The game also enables you to save and print player statistics, box scores, team schedules and league standings. You can also import teams from other baseball

games. A "Highlight Reel" lets you store home runs and other great plays for later viewing.

HardBall III is the finest baseball simulation you can buy, an incredibly authentic version of the National Pastime that will bring you endless innings of exciting baseball action.

Digitized players and 256 color VGA graphics. The league's best double play combo. Visuals that capture the heat of a pennant race.

Act as manager and owner. Take charge. Team and Player Editors let you alter everything from team logos to a player's ability.

Zoom in on quick release plays. Five cameras cover the field. Watch instant replays and save the best for your Highlight Reel.

Now Available! The MLBPA Players Disk – you can import the names, faces and statistics of your favorite Major League baseball players. Includes 650 players from all 26 Big League teams (\$24.95).

SCIENCE FICTION . . .

- ★ Based on the hit science fiction combat game, *Star Control*
- ★ A novel and exciting hybrid of white-knuckle tactical combat and classic science fiction role-playing
- ★ 256 color VGA graphics — 3-D rotating planets — fractal-generated planet surfaces
- ★ Customizable flagship and 25 different combat spacecraft
- ★ “Super Melee” bonus program allows for endless combat variations with up to 28 starships per battle
- ★ Compelling soundtrack featuring breakthrough purely digital sound and music on 4 audio channels

Two years in the making, *Star Control II* bursts across your PC screen like a supernova of battling spaceships, dazzling 3-D rotating planets and ultra-brilliant 256 color VGA graphics.

This stunning sequel to *Star Control* — 1990's “Science

Fiction Game of the Year”^{**} — takes you on a faster than light exploration of a universe teeming with over 500 star systems and 3,000 planets.

Your mission: Blast off from the isolated research colony of Unzervald to discover if Mother Earth survived the Great War.

As you journey through deep space, you'll meet 18 different alien races. Interspecies communication is possible, but in some cases combat is inevitable.

To survive you must explore, talk and fight your way across the galaxy; continually upgrading your flagship with

new technologies, and increasing the strength of your personal battle fleet.

There are 25 different alien spacecraft to master in ship-to-ship tactical combat. With the Super Melee bonus game you can prepare yourself in ferocious practice battles with up to

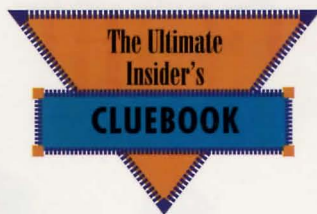

28 ships, either against a friend or the cunning computer.

A wave of mysteries to unravel, incredible combat sequences, riveting VGA graphics and a spellbinding soundtrack make *Star Control II* the "must-play" science fiction adventure for 1992.

ROLE PLAYING

Your speed's not the only thing that's warped out here — some of these aliens have a real weird sense of humor.

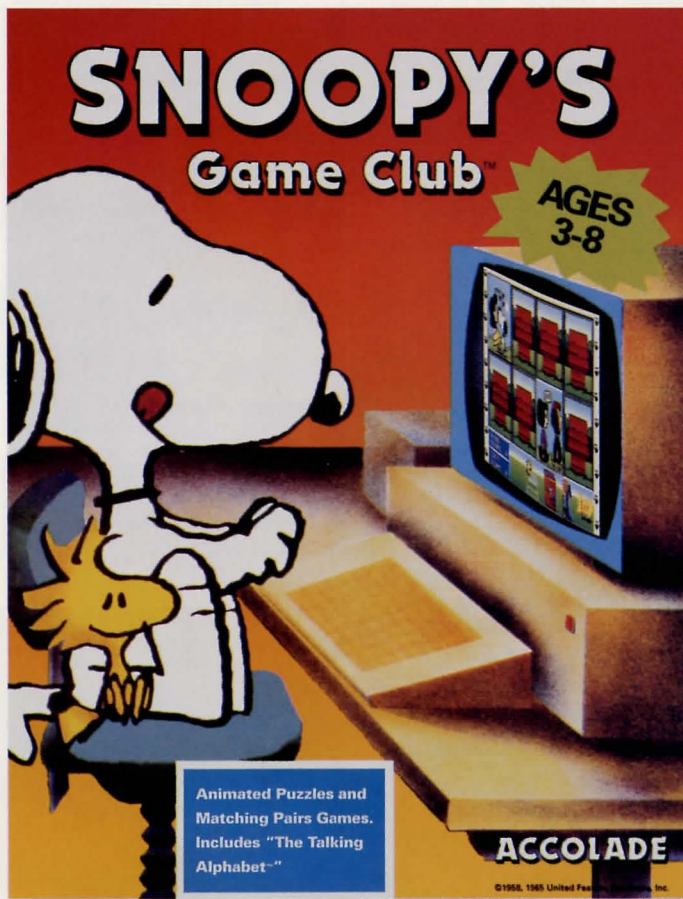

Visit 3-D rotating planets and send Planet Landers down to pick up minerals and life forms.

- ★ A plot squirrely enough to wig out Sigmund Freud
- ★ The ultimate role-playing game
- ★ 100 hours of award winning gameplay
- ★ 800 castle locations
- ★ Stunning graphics — hair raising sound effects

Elvira mixes the sizzle of graphic adventure with the crackle of fantasy role-playing in a cauldron bubbling with weird and wonderful action.

Join the Mistress of the Dark in an incredible castle called Killbragant with more

than 800 freaky locations.

One hundred hours of award-winning gameplay prompted CGW to name *Elvira* the 1991 Role-Playing Game of the Year.

Unconditional guarantee: *Elvira* will give you the best nightmares you ever had, or we'll give you your sanity back!

- ★ All new Hit Point Allocation system — 100's of opponents
- ★ Fantastic 256 color VGA graphics — haunting soundtrack

Elvira II: The Jaws of Cerberus

Only Elvira herself could hatch a plot like this. First, the buxom anti-blonde vanishes. Gad! To make matters worse, her Hollywood studio, Black Widow Productions (what else), erupts in a tide of hideous Gothic monsters.

Your quest? Search through cavernous movie sets — a graveyard, a haunted house and catacombs — and rescue Elvira from her perilous predicament.

Oh, by the by, a nether-

world entity of teeth-chattering ferocity has made it his life's work to tear your face off. (\$69.95 for IBM PC and \$39.95 for Amiga.) Have a nice day.
