AFRICAN SAFARI

African Safari is not just an adventure game, it's a movie you can take part in. Every character is fully animated, and the main characters walk across the screen under joystick control.

When you type in LOOK Dr. Livingstone will nod yes, and then look about. He even blinks when he's not doing anything.

Every location is shown in full colour and scrolls panoramically across your screen; you can see the objects you

encounter and the obstacles you must overcome.

Your object is to recover the long lost Kenyan Diamond. You must find it within an hour or night will fall and the wild animals will get you.

African Safari will appeal to all types of adventurers. Experienced adventurers will enjoy its sophistication and should be able to complete it in fourteen days of play. Beginners will enjoy the full graphic display of the locations.

African Safari abolishes the distinction between arcade and adventure.

DO YOU SINCERELY WANT TO BE RICH?

If you have written any games and you would like to earn a mint, why not send them in to us at Interdisc, 249-251 Kensal Road, London, W10 5DB or phone 01-969 9414 for details.

Please cut off and send in this card if you would like to receive our newsletter and be kept informed of forthcoming releases.

AFRICAN SAFARI

Set in the jungles of Africa, you take the part of Dr. Livingstone (a lazy man — he gets monkeys to do his work for him) and guide him in his quest for the long lost Kenyan Diamond.

The game begins in the National Park. From here your travels may (or may not) take you through the Zambezi River (watch out for crocodiles), the Sahara Desert (the heat might make him delirious), the Great Grass Plains (watch out for lions), the densest jungles and most mountainous caves of deepest Africa.

INSTRUCTIONS

TO LOAD: Press SHIFT and tap RUN/STOP. The game will load in approx. 3 minutes.

TO MOVE: To move left or right (East or West) use the joystick (port 2). To move North or South type: GO NORTH or GO SOUTH. You may only go in the direction indicated on the screen.

COMMANDS: AFRICAN SAFARI uses simple TWO WORD commands: GET PEANUTS, GO BOAT, DROP PEANUTS. Each command MUST be typed in full.

Other verbs you may find helpful are PLAY, LIGHT, CUT. LOOK and INVENTORY are also permitted instructions: LOOK describes your surroundings; INVENTORY tells you what you are carrying.

NB If you type in a command which the computer does not understand, the computer will not respond. Just try again with another command.

HINTS: When in the river scene, to land the boat you must pull back on the joystick. (Beware of the strong current).

To choose which monkey to take, type: STRONG or WEAK. But be careful not to stray too far from your monkey, or you might lose him.

If you get really stuck, you can send off for a helpsheet. The address is: **Interdisc, 249-251 Kensal Rd., London W10 5DB.**
