

# Crystals of ARBOREA

 Silmarils

**INSTRUCTION MANUAL**  
**LIBRETTO DI ISTRUZIONI**

## START UP

### ON A PC:

Load MS-DOS, then insert diskette in drive A and type ARBO.

### ON ATARI ST/AMIGA:

Insert the diskette before switching on the computer.

## PC PROBLEMS?

- If the program stops when loading, check MS.DOS has not installed resident utilities, using up too much memory.
- ARBOREA contains digitised sound. This may cause problems with some PCs, the program may stop running. Start the game again without the sounds by typing ARBO S instead of ARBO.
- If you have any problems with the mouse: start the game by typing ARBO M instead of ARBO.
- If necessary, joysticks can be disconnected by typing ARBO J instead of ARBO.

## HARD DISK INSTALLATION (on PC)

Create a sub-directory and copy all the files of the game diskette(s).

When you start up the game from this sub-directory leave diskette in drive A.

## AVVIO

### SU UN PC:

Caricate l'MS-DOS, quindi inserite il Dischetto nell' unita A e digitate ARBO.

### SU ATARI/AMIGA:

Inserite il dischetto prima di accendere il computer.

## PROBLEMI TECHNICI SU PC

- Il programma si blocca durante il caricamento. Controllare che l'MSDOS non installi programmi residenti in memoria che occupino troppa memoria DOS.
- Il gioco si blocca durante l'esecuzione degli effetti sonori. Si puo evitare l'uso degli effetti sonori digitando ARBO S invece di ARBO.
- Problemi col joystick. Puoi disabilitare il joystick digitando ARBO J invece di ARBO.

## INSTALLAZIONE DEL DISCO RIGIDO (SU UN PC)

Create un sottoindirizzario e ricopiate tutti gli archivi del(i) dischetto(i) del gioco.

Quando iniziate il gioco de questo sottoindirizzario, lasciate il dischetto nell'unita A.
