Attention microcomputer software writers!

ShareData, Inc. is aggressively seeking high quality software for Apple, Commodore, Atari and IBM compatible brands of microcomputers. ShareData, Inc. has pioneered the high quality, affordably priced software marketing concept. With one of the largest distribution channels, ShareData's software is sold all over the world! If you have written a unique program and would like to have it published, send it to ShareData for review. If accepted, your software will receive international market exposure while you enjoy competitive royalties.

To have your software reviewed for publishing, send it to: Product Licensing Dept.

ShareData, Inc. 7122 Shady Oak Road, Minneapolis, MN 55344.

ENTERTAINMENT SERIES

Beginner's Cave

One of The Adventurer series, this computerized version of a role playing game lets you create a character who undertakes a series of exciting adventures. Your character is established by your strength, dexterity, intelligence, the amount of gold you possess, and the number and kinds of weapons you carry.

With the computer controlling the situation, your character can withdraw or deposit money in the bank, buy weapons and armor and capture hidden treasures. While defeating evil creatures lurking in the perilous **Beginner's Cave**, build up your treasures and try to find your way back to where you began your adventure.

WARNING! Be careful of the trolls and dragons on your trek or you may find yourself perishing in the middle of the adventure. You win by surviving — and surviving is tough!
