YOU ARE A HERO, pitting your sword and sorcery against the forces of darkness. This is no sterile simulation, a momentary glimpse of heroism. You live your life as a man or woman should: beginning as a young naive novice, risking your life and reaping the rewards; always growing, changing, evolving. This is life. This is high adventure. This is . . .

# SWORD THRUST

A Fantasy-Role Playing System by Donald Brown

Each Adventure retails for \$29.95. SwordThrust requires a 48K Apple II, Applesoft, and DOS 3.3. Adventures two through seven require the Master Disk to play.

***There are the laws of nature, the laws of man, and the stock market is subject to neither.***

Make your fortune. Manipulate the market by creating artificial shortages and gluts, driving innocent companies into bankruptcy in your mad quest for riches. You will face up to eight human opponents,

implacable foes who will stop at nothing to utterly destroy you. But that is not all. Towering over every move you make, casting its shadow over your every deft maneuver, is an all-powerful force that can mock any effort you make — the always elusive, never predictable STOCK MARKET.

# **\$ WALL STREET™**

Wall Street has up to nine players buying and selling stocks in a hyperkinetic market. The favorite tools of the investors — information services, buying on borrowed money, and selling short — are here to use. Wall Street retails for \$24.95 and requires a 48K Apple II, Applesoft, and disk drive.

# **MISSION ESCAPE!™**

You are the leader of the rebellion, trapped inside the Emperor's Prison. You have the information that will mean victory for your side, if only you can get it out. You've escaped from your cell, but now must shoot,

run and dodge your way through ten rooms filled with dull soldiers, exploding drones, and damn-near unstoppable robots. The gauntlet has been run successfully — once — but the odds are against you. You won't let that stop you, will you?

Mission Escape! features exciting hi-resolution graphics and retails for \$24.95. It requires a 48K Apple II, Applesoft, and disc drive.
