CLOAK OF DEATH

by

David Cockram

THE GAME

Strange what bets you'll accept after a few pints in the local. 'Easy' you said, 'Stay a night in the old house, it's only been empty for 30 years'. These words echo in your head as the door closes behind you, and try as you might you can't open it again...

The program recognises 67 verbs and 94 nouns. You can switch off the graphics if they get too much for you by pressing Return. To Save a game enter Save and follow the screen prompts. The best of luck and mind the language..?

LOADING

CLOAD. When the program is loaded RUN

The program code, graphics and artwork are the copyright of Bug – Byte and may not be reproduced, stored, hired or broadcast in any form whatsoever without the written permission of Bug – Byte. All rights reserved.

The front door closes behind you...can you open it again?
A spine chilling adventure with blood curdling graphics from David Cockram the well known Battleglom from Vragus IV.
