TITANIUM SEAL AWARD WINNER

Ancients 1: DeathWatch

It's a whole new kind of PC game.

You begin by assembling your own team, assigning levels of strength, agility, wisdom and magical powers to each member. Next, get ready to face the perils of the Underworld. You're about to start the journey of your life. Now you must deploy each team member at the right time ... or you all die.

The stress is immense, but the outcome can be fabulously rewarding. Don't bother to start *DeathWatch* unless you're ready for the challenge of your life.

ABOUT TITANIUM SEAL SHAREWARE This is the best way to buy software. You can try dozens of Titanium Seal titles without spending a fortune. If the program meets your needs, pay the registration fee. Many shareware authors provide additional incentives to registered users.

SAFE FROM VIRUS ATTACKS Each Titanium Seal title is hand-mastered. From this pure virgin master, your copy is duplicated and then hermetically protected with an anti-virus seal on the package. You can use it with total confidence, knowing your system and all your other software is protected.
