Fast Action Graphic Games

Featuring graphics like you've never seen on your Heath/Zenith computer. These machine language games challenge your reflexes and skill against a determined and worthy opponent (your computer). Available on Dual Format (HDOS-CP/M) disk.

SPACE ODYSSEY I

The year is 2033. Man has long since left the solar system on many exploratory and often dangerous missions into deep space. The discovery of hyperwarp acceleration (2024) enabled man to explore vast areas of the Milky Way galaxy. Most of the galaxy has been charted, but several sectors on the outer reaches of the Orion cluster remain a mystery. A number of unmanned data collecting probes were sent into this mysterious cluster. Being the adventurous and daring person that you are, you have volunteered to hyperwarp into this area to explore and retrieve the probes.

The front window of your spaceship shows a variety of natural and unnatural objects as they come at you in 3-D space. Use the navigational computer to find your heading and distance to the nearest probe. Vary your warp velocity to maximize fuel efficiency. Maneuver your ship around asteroids or vaporize them before they damage your shield. But don't vary too far off course or you may be lost in space forever!

Space Odyssey I (48K) \$21.50

GALACTIC WARRIOR

The deadly Evils have launched a massive attack against your home galaxy. The Galactic Empire is in ruin and most of its defenses have been weakened. You are the best warrior in the galaxy and the last hope for the Galactic Empire. You have been given the most powerful ship and the approximate location of the enemy space station. Your mission as the GALACTIC WARRIOR is to stop the impending attack and destroy the Evils.

Your ship is equipped with a powerful force field which will shield you from all enemy weapons in emergencies. Your ship is also armed with deep space missiles and a powerful short range laser. You must fight your way through several waves of deadly star cruisers and destroy their heavily armored space station.

Galactic Warrior (48K) \$19.50

Y-WING FIGHTER

After a long battle, the forces of good have driven the dreaded (and powerful) enemy back to EW-1, his home planet. You must fly your Y-WING FIGHTER to seek out and destroy this enemy once and for all. The problem is that EW-1 has never been explored and so very little is known about it. The only thing you can be sure of is that the enemy is preparing for your attack.

During your journey, you will meet some of the hostile inhabitants of EW-1. They will do their best to prevent you from reaching your destination. Control the speed and altitude of your Y-WING FIGHTER to out maneuver them and use powerful front and rear phasers when they become too aggressive. Your Y-WING FIGHTER may become damaged as you encounter the local meanies. When this happens, you may be able to survive by gliding to a safe landing. If successful, you can make repairs and take off to continue the mission.

Y-Wing Fighter (48K) \$19.50

MISSILE CONTROL

You are under attack by a powerful enemy. He has many long range guided missiles and bombers at his disposal. Your responsibility is to protect six important cities from the onslaught of this menace by launching missiles which can be set to explode anywhere on the screen. The keypad is used to move a crosshair which determines where your missile will explode. You can then launch a missile from either (or both) of your launch pads to intercept the approaching enemy missile or bomber.

If you ever wanted to know what it feels like to be responsible for millions of (electronic) lives, now is your chance.

Missile Control (32K) \$17.50

INVASION

After months of defending against the space INVASION, earth is down to its last three missile launchers. These launchers have been put under your command in a last ditch attempt to save earth. As you are the only thing keeping the INVASION from landing, they will do their best to blow you to smithereens by dropping bombs that slither down to earth. You must also watch out for radioactive fallout when you hit one of the Invaders. When your last launcher is destroyed, you will watch with agony as the INVASION lands to begin plundering and pillaging.

Invasion (32K) \$17.50

Interactive Fiction

Interactive Fiction puts you in a literary setting—a narrated story in which you are a character. What you say and do determines if you live or die, achieve fame and fortune, or disgrace. They require Microsoft Basic, 48K and two disk drives. Both HDOS and CP/M versions are available.

SIX MICRO-STORIES

A good introduction to Interactive Fiction. You take part in six short stories, each with many outcomes. Be a spy in Hitler's Third Reich, the pilot of a doomed 747, and more.

Six Micro-Stories \$17.50

DRAGONS of HONG KONG

The story begins as you walk into Big Al's bar to meet Professor Goodman who has just discovered a terrible secret. This secret takes you to the Far East where you have a chance to free the world of an age-old blight, clear your name of a despicable crime, and finish the story in the arms of the woman of your dreams.

Dragons of Hong Kong \$21.50

In the planning stages are many more high quality games, simulations and other unique software to increase your enjoyment of your Heath/Zenith computer. All of our games are available on 5" hard sector disk. All are for the H/Z89 and H8/H19 systems. Available at many Heath/Zenith retailers or order direct from:
