FRANTIC FREDDIE

SAVE FREDDIE
FROM
THE GREEBLIES!

FRANTIC FREDDIE

LOADING - Press SHIFTed RUN/STOP. Plug Joystick into Port 2. Press Fire button to start game.

PLAYING - Freddie is a telephone engineer who has accidentally come across a secret magical telephone network. Pots of gold are sitting on the wires, and Freddie is so greedy that he has to have them all. Unfortunately, the gold is guarded by the dreaded Greebles. The Greebles may look cute, but they are ruthlessly efficient at disposing of anyone who comes along to steal their gold!

Use your Joystick to move Freddie left or right, or up or down the poles. When Freddie meets a telegraph pole he must go up or down it. The Greebles can pass over the poles, but Freddie can't! If Freddie can grab all the pots of gold he can advance to the next level. Wacky bonus characters will appear, and there are extra points for these.

It may help you to know that the Red Greebly tracks you up and down, searching for the floor level that Freddie is on, while the Blue Greebly tracks Freddie sideways. The Yellow Greebly is a law unto himself and you never know which way he'll go!

Watch out for the wacky intermissions and wonder at the brilliantly arranged music sound track!

SCORING - Get 10 points for each pot of gold, rising by 10 points each new level. Score 100 for bonus characters, increasing by 100 each new level. Enter your initials in the high score table, starting with the leftmost initial. Push Joystick forwards until the right letter is displayed, then move the stick to the right to go on to the next initial. Or move left to correct a previous initial. When the letters are correct, press Fire to start again.
