FLAME QUEST

Your task is to save City of Clarl by re-lighting the Sacred Flame. To aid you in your quest you carry a Magic Sword and have the ability to cast spells. During your journey you will encounter the many inhabitants of

the Mines of Valtec who you must defeat to continue. In addition to the spells, you have the ability to teleport to safety (or not as the case may be). You must increase your experience level and armour class to gain access to the Sacred Flame.
