

# Goblin Crusher

For the 48K Sinclair ZX Spectrum

## GOBLIN CRUSHER

Life in Yahto was pleasant until the Ogre decided to set up his home nearby. From the moment he arrived he started to terrorise and kill the inhabitants.

Many brave souls tried to kill the Ogre but none was able to best him.

The only option left open to the people of Yahto seemed to be to take to the road and find another home.

Then a ragged man staggered into the village. He had been held prisoner by a band of goblins but had managed to escape.

The rest of his story set your pulse racing. The king of the goblin band had a potion hidden somewhere in his cave; a potion of Fire Breathing. The one thing guaranteed to destroy the Ogre.

If you could find the goblins and get that potion you would be a hero. And you always wanted that.

In 'Goblin Crusher' you are Gwillam the Fighter. You will set out on your quest armed only with a sword and a heart filled with hope.

Can you fight your way to the heart of the goblin's tunnel complex and wrest the potion from the king?

Will you be able to return and free Yahto from the grip of the Ogre?
