

48K ZX Spectrum

LOADING INSTRUCTIONS

1. Prepare the cassette recorder according to the instructions in the Sinclair handbook.
2. Type the command:-
LOAD "GULCH"
(capital letters), then press ENTER.
3. After approximately one minute, you will receive some further instructions on the television screen. If, after 3 minutes, nothing has happened, refer to the Sinclair handbook for cassette setting-up procedures. You should rewind the tape and repeat step 2.
4. When the program has successfully loaded, all further instructions and rules will be given on the screen.

**This cassette requires 48K ZX Spectrum.

**Side B is a duplicate of Side A.

**All programs written by Mike Farley.

All material on this cassette is subject to copyright. The cassette is sold subject to the condition that it shall not by way of trade be lent or hired out and that a similar condition be imposed on any subsequent purchaser.

An old deserted mining town holds the clues to the location of a lost gold mine – it's all there for the taking if you can solve the clues and stay alive long enough! This full Adventure uses a split-screen giving graphic pictures and scrolling text window, with a machine coded English command line scanner for fast word recognition.
