Its program code, graphic representation and artwork are the copyright of Ocean Software Limited and may not be reproduced, stored, hired or broadcast in any form whatsoever without the written permission of O.S.L. All rights reserved. The program runs on the 48k ORIC I Computer

The object of the Adventure is to find the six Treasures on the Island while fending off all the dangers which you will encounter.

LOADING

Position the cassette in your tape recorder with the printed side upwards and make sure that it is rewound to the beginning. Ensure that the leads are connected correctly and that the volume level has been adjusted for normal loading level. Type C LOAD "INTRO" <RETURN> Now press play on the recorder. The screen message should appear and the game will load automatically. [For further instructions consult the section of your manual on LOADING.]

PLAYING

You have just been shipwrecked on a Coral reef surrounding an Island and are the only survivor. You must first swim ashore, but on reaching land your adventure has only just begun. In order to succeed you must discover the six treasures hidden somewhere on your new home, but beware many dangers lie ahead and you must be pretty smart to stay out of trouble. Some of the perils you will face will be the Hungry Snake, Dreaded Tunnel Bugs, Fierce Shark and Gigantic Ants. You must avoid the Quicksand, dodge the Waterfall, negotiate the Maze, swim the River and don't forget to Pay the Toll on the Fishing Bridge. Other dangers are lurking but you must find those out for yourself – GOOD LUCK!
