## THE GAME

You're Matt Lucas, the best private detective in the state of Florida — the centre of the world's drug trade. Your friend and partner John Harpinger has been kidnapped by a ruthless gang and it's down to you to rescue him.

By detecting the clues left in the kidnapper's wake you should be able to track him down, but you'll need the help of your colleagues in the precinct — Lt. Davis, Cosby and Deringer. *They* need your help in other vice-squad operations, so time is scarce and is rapidly running out...
