MICRO STAR

Software of the Month Club

The Best Software Bargain in the World!!!

Imagine receiving up to 8 or more great software programs for the incredibly low price of only **$6.95** each month!

That's right! And there are no extra or hidden charges! That includes shipping, handling, EVERYTHING!!!
(CA residents please add 6% sales tax, San Diego County add 7.75%.)

These programs are not available in any store. They are new, up-to-date programs of all kinds: education, games, business, applications for home and the office, mail lists, graphics programs, and various applications of almost every type.

Not only that, you can choose from any one of the three following catagories of clubs:

1) The **Windows Club** for those that have Windows.®
2) The **VGA Club** for those that use a VGA Color Monitor.
3) The **Monochrome Club** for those with a monochrome monitor.

Our Software Librarians have spent many hours carefully selecting from literally thousands of programs to find only the best available software - saving you hours and money in searching for the best software.

SATISFACTION GUARANTEED!

Try the club for one month. If for ANY reason you are not 100% satisfied, simply return your disks within 30 days for a complete refund.

Call TOLL FREE today and join!
(Please have your Visa or Mastercard ready.)

MAKING BACKUP COPIES OF YOUR MICRO STAR DISKETTES

IMPORTANT: Before loading your Micro Star diskettes, PLEASE be sure to make backup copies! Using the original Micro Star disks could cause you problems in the future! The following instructions explain how to make a backup copy. Please read the appropriate instructions for your computer setup. Also note that the DISKCOPY command cannot be used to copy between 5 1/4" and 3 1/2" disks, nor can it be used to copy between low and high density disks. If your A: drive is a different size than your B: drive, follow the instructions for using one floppy drive, and be sure to use double-density disks.

- ONE FLOPPY DRIVE AND NO HARD DRIVE
  1. Insert DOS diskette in drive A.
  2. Type: DISKCOPY A: A: <ENTER>
  3. When prompted to insert the SOURCE diskette, insert the Micro Star original and then press the <ENTER> key.
  4. When prompted to insert TARGET diskette, replace Micro Star original with a brand new diskette and then press the <ENTER> key.
  5. Repeat steps 3 and 4 when prompted (this step may not be necessary.)

- TWO FLOPPY DRIVES AND NO HARD DRIVE
  1. Insert DOS diskette in drive A.
  2. Type: COPY A:*.* B: <ENTER>

- ONE FLOPPY DRIVE AND HARD DRIVE

  Follow steps 2 through 5 from the one floppy drive and no hard drive instructions above, either from the A> prompt or C> prompt.

- TWO FLOPPY DRIVES AND HARD DRIVE

  Follow steps 2 and 3 from the two floppy drives and no hard drive instructions above, either from the A> prompt or C> prompt.
