Warp factor 9 on the high seas of space

Working as a space pirate for arch-criminal organisation The Council you go in search of bountiful cargo ships. Succeed and you will gain money to buy new attachments for your ship. Alternatively you might wish to enjoy yourself in the Cosmic Arcade playing video games such as Disasteroids. by ZIPPO GAMES

"A thinking man's shoot em up... an engrossing and addictive challenge that will have you coming back for more."

THE ONE

"The programmers have done a superb job combining fast action, huge and colourful graphics, great sounds and awesome gameplay in one package."

COMMODORE USER

"This one'll have you coming back so often your joystick will beg for a break."

ST AMIGA FORMAT

The hit sequel to one of the all-time computer game greats!

BARBARIAN II

THE DUNGEON OF DRAX

The search for the evil Drax continues. Now the Barbarian and the Princess fight their way past dozens of incredible monsters, through a maze of caves and dungeons.

"The cocktail of beat 'em-up and arcade/adventure works exceptionally well. . . . The monsters are incredible, and with their gruesome sound effects they almost

seem to come to life. . . . I haven't enjoyed a game so much for ages!"

ST ACTION

"Barbarian II is more than a worthy successor. It not only contains the same hack'n'slash action but has added arcade adventure elements making its gameplay more varied and increasing its lasting interest."

The Award Winning Game Construction Kit!

SHOOT 'EM UP CONSTRUCTION KIT

Have you ever dreamed of writing your own computer games but have been held back by a lack of programming skills?

Now is your chance to make your dream come true with Shoot Em Up Construction Kit, the arcade game-making programming that requires no programming skills.

SEUCK has been created by the games designers behind some of the top-selling computer games. In one fully integrated package you are able to design your games using professional-standard design tools.

The only extras required are a mouse, a joystick and your imagination!

Three ready-made games included in the package.

"Of all the game creators that have appeared on various machines, SEUCK is without doubt the easiest to use and the one that will produce the results fastest."

ST AMIGA FORMAT

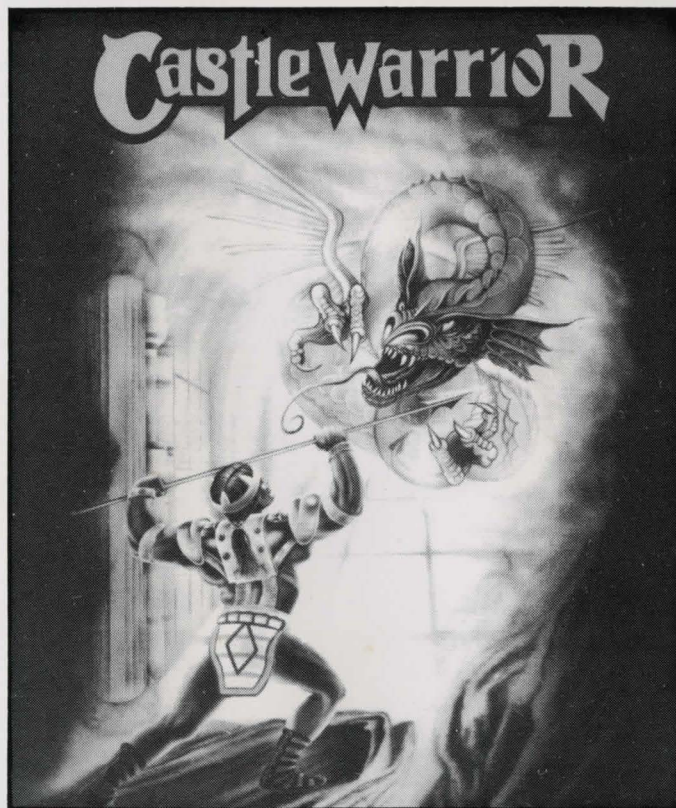

"An easy-to-use, quick and powerful editing system which produces smooth-scrolling, colourful games. But not just stupid looking games that could be done on a Spectrum. Nope, make no mistake that these are Amiga games."

ACE

"Now you can sit down and produce a sizzling shoot 'em up, complete with dazzling graphics and meaty sampled sounds. . . It must be said that SEUCK is great. It's easy to use and rather engrossing."

THE ONE

Arcade action as only 16 bit computers can deliver!

It's action all the way in this challenging quest. Your father, the King, has been poisoned by an evil wizard who you must defeat in order to gain the antidote.

Battle through subterranean caverns filled with deadly monsters! Dodge rocks and falling stalactites as you steer your canoe along underground streams! Fight

huge monsters that block your path! Survive the evil magic of Zandor! Fly a dragon through the skies filled with menace!

Castle Warrior is classic arcade-style action: huge characters, incredible colours and fantastic sound. New from the Delphine team.
