## PLANET OF FEAR

You are stranded on an alien, unfriendly planet. Your space ship has been captured and disabled. Your aim is to escape from this planet by finding, entering and repairing your space ship. You will be faced with many dangers, hazards, and fearful situations.

Your computer will move you through this alien environment. It will respond to simple commands; NOUN-VERB sentences like GO LEFT. If the computer does not understand your command, reword it. Use the RUBOUT key to erase unwanted letters.
