PRISM

PRISM is an ISM Storydisk™ which tells the wondrous tale of the theft of the three ancient Keys of Color, and the adventures of the young boy who must seek them in the monstrous kingdom of Yolsva, Plane of Darkness. All is chaos, and the story contains many levels of hidden meaning through which the Keys may be found and reunited with the prism. When this occurs, and only then, can the mysterious and magical ending of PRISM unfold.

The reward for the intrepid treasure seeker is possession of the keys themselves, each an original work of art crafted from solid gold and imbedded with a precious stone. The finder will own a valuable keepsake of the search as well as a lasting tribute to his own resourcefulness. Each key represents a primary color, and belongs to whoever finds it first.

an ISM  STORYDISK™

Follow the adventures of gallant young Hubert, chosen True Protector of the PRISM in his quest for the Keys of Color.

Stolen by the minions of the unspeakably evil Grane, lord of Yolsva, the three ancient keys are separated from the prism, draining the world of color. It has fallen to a young lad to follow the trail of the Keys and to restore them to their rightful place beside the PRISM.

Travel with Hubert through the labyrinth of clues and discover the treasure — in reality! For the three solid gold keys, each bearing a precious gem, have actually been concealed by the creators of PRISM somewhere in the continental United States. They will lie hidden until the cleverest and most enterprising among the treasure hunters unravel the many mysteries through the layers upon layers of meaning in this intriguing tale.

Finally, a stunning conclusion will be revealed when the keys are reunited with the prism. The solution to the puzzle now awaits you. Your imagination and dedication are the only tools you need to guide you to the dramatic ending of PRISM...and possession of the treasure.

Pledge of Veracity: ISM undertakes that the three gold keys portrayed in the Fable herein do exist in fact and have been hidden indeed, according to clues discernible within.
