TITANIC

The Adventure Begins...

April 14th 1912. On her maiden voyage, in mid Atlantic the TITANIC struck an iceberg, she sank within three hours taking with her a vast fortune in GOLD.

Your Mission is to find the TITANIC and recover the lost GOLD.

But First – you have to raise sufficient finance for the expedition

And Then – you need to buy supplies and expert help; a shopping list is provided. Some things are essential (others you can play without) but spend wisely.

Now "CAPTAIN" you are ready to set sail in search of the "TITANIC".

You locate the TITANIC – jolly good show.

Now all you have to do is – FIND THE GOLD – easy isn't it? Well it could be but there are THREE DECKS and over 460 possible locations for the GOLD, but don't worry, there are four maps on each deck to help you.

You are searching the dark passageways and cabins for the GOLD (don't forget your air supply is limited) when suddenly . . . Well that would be telling wouldn't it.
