Attention microcomputer software writers!

ShareData, Inc. is aggressively seeking high quality software for Apple, Commodore, Atari and IBM compatible brands of microcomputers. ShareData, Inc. has pioneered the high quality, affordably priced software marketing concept. With one of the largest distribution channels, ShareData's software is sold all over the world! If you have written a unique program and would like to have it published, send it to ShareData for review. If accepted, your software will receive international market exposure while you enjoy competitive royalties.

To have your software reviewed for publishing, send it to: Product Licensing Dept.

ShareData, Inc. 7122 Shady Oak Road, Minneapolis, MN 55344.

ENTERTAINMENT SERIES

The River Adventure

A famous scientist (Professor Axom) was kidnapped three months ago. The Society for the Preservation of Famous Scientists (SPFS) has offered a substantial reward for the safe return of the professor.

It is rumored that the infamous Black Warrior (who lives on the Zyphyr River) was responsible for the abduction. Your task: follow the river and retrieve the professor — alive!

Tools and weapons are available and at your disposal; and you'll need them in your battle against the Black Warrior.

The **River Adventure** is the third in The Adventurer series of role playing games. You can maintain your ongoing character or, if you choose, develop an entirely new one.
