Press 2 for 2 players.

If you press "FIRE" button on your joystick, the game is automatically selected for one player option.

If you wish to play on the keyboard, you have two options of selecting which keys to use.

: Fire.
3. Use joystick.

During the game you can press Run/Stop key to return to the selection process. Your base is under attack by alien fighters escorted by a mother ship. You start with three fighters and get a bonus fighter at 20,000 and 70,000 points.

The aliens first fly to their positions before attacking. It is best to shoot them down before attack starts. There are two types of alien fighters, red and yellow. Both can be shot down by a single shot. The mother

ship also joins the attacking formation. It requires two shots to be destroyed. The mother ship must not be attacked while in position. If you do so, you will lose your fighter. The mother ship can only be destroyed when it is attacking you.

The mother ship can attack your fighter in two ways.

1. It may form a convoy with other fighters to attack you.
2. It may attack alone. When it attacks alone it will try to capture your fighter using its laser traction beam.

If it captures your fighter, one of the remaining fighters takes the place of the captured fighter. The lost fighter can be recovered if your fighter is able to destroy the mother ship. At that point, all action stops and the captured fighter returns to join your other fighter to make a formidable force with double firing capacity. If however you do lose a fighter in the subsequent action, the game continues with the remaining fighter.

After the second screen and there after every 4th screen, there is a special screen called a CHALLENGE SCREEN. In these screens, the fighters do not attack you. There are four stages in this screen. You try and shoot as many alien fighters as you can to get bonus points.

try in the hands of its super intelligent command module. The defenders of the command module base are formidable. It requires a steady hand and accurate control

GAME 2

DENIS THROUGH THE DRINKING GLASS—© Applications Software

A zany political adventure where you take the role of Denis Thatcher striving to overcome insurmountable odds to escape from the political jungle.

Don't just stand there reading this leaflet. Get stuck into Ken Livingstone, Norman Tebbit, Mary Whitehouse and all those others from the political jungle. Okay, so doing what you want with Tony Benn doesn't get you through to the next stage of the game, but it makes you feel better, doesn't it.

Your objective is to avoid Maggie, overcome all the horrors you meet and reach the sanctuary of The Gravediggers Arms. Just be careful about how you treat the Royal Family. My chances of getting an OBE are pretty slim, without you upsetting little Willie and his Mum. And I can do without Prince Andrew waiting for me on a dark corner.

If you upset the Pope, on your own head be it. I'm not going into the fiery furnace because of your irreverence. And speaking of the Pope—don't in front of Ian Paisley unless you want a right earful of the Armagh twang.

There isn't a bulletproof vest available in your size, so watch out at Greenham Common if the bullets start to fly.

In case you hadn't realised, you take the role of Denis Thatcher. I have chosen for your guide through this adventure that lovable MP from Bolsover, Dennis Skinner. You can deal with all the monsters in the game, but tangle with the Iron Lady and you won't half get it when she gets you home.

The following are some of the instructions understood by the game. The others you must find out for yourself.

N.NORTH S.SOUTH E.EAST W.WEST NE.NW. SE. SW. U.UP. D.DOWN. TAKE. GET. DROP. WEAR. REMOVE. RUN. LOOK. OPEN. QUIT.

R.REDESCRIBE (current location)

I. INVENTORY (objects carried and worn)

SAVE (Save present game position, if you need to eat, sleep, etc.)

LOAD (Previously saved position)

That's all I'm prepared to tell you about this game except to say that all the usual adventure game instructions are accepted plus some more that you will have to find out for yourself.

GAME 3

(ALL TERRAIN MOON BUGGY) is capable of accelerating and de-celerating rapidly. It can also jump over the moon rocks and across the craters. The craft is fitted with high speed laser missiles. The moon base outer defences have been penetrated by the alien attack forces operating from the huge star cruiser stationed just beyond the horizon. There are three types of attack used by the alien forces:

1 Low Level Aerial Attack.

The high speed fighters drop their photon bombs which will destroy your craft on impact. The bombs also sometimes create an extra crater for you to jump over. You may need an extra spurt of speed to jump over big craters.

2 Surface Attack.

Alien tanks mount surface attack with laser bolts. You must either jump over them or die instantly.

3 Mine Layers.
