# Destination: EARTH

The time is long past when men conquered space and when the great **Terran Empire** ruled the galaxy—the time before the giant warships of the evil **Kroll** darkened suns and destroyed worlds. A pangalactic war was waged that lasted a thousand years—a war that mankind lost. In the end, the powerful **Kroll Imperium** had moved the planet Terra itself from its orbit and hidden it deep in guarded Krollian space.

The rulers of humanity bowed before their conquerors, but a fighting spirit lived on in a Terran progeny that had spread far and wide. A fierce new breed of *space pirates* plagued the overlordship of the alien invaders, striking back at Krollian trade. Led by the legendary rebel commander known as **Hammer**, they defied the ban of the Kroll and searched uncharted space for Terra, the lost home world. Terra, the richest prize of all...
