SIDE 1 - SUICIDE ISLAND PART ONE

In this adventure the computer acts as your puppet and controls your senses. Plenty of imagination, patience, and some lateral thinking is necessary if you are to succeed in finding the treasure.

You will move from one location to another and there are objects on the way, some of which should be collected as you may need them later on.

Each location is described by the computer and you may instruct it with phrases such as: 'NORTH', 'EAST', 'SOUTH', 'WEST', 'I'(inventory), 'SCORE'.

The computer then provides an appropriate response such as a new location. It is also possible to communicate with the characters (ie: SAY TO JOSH "N").

SIDE 2 - SUICIDE ISLAND PART TWO

In part two you must find the treasure, which is hidden on the island.
