This unique fantasy role-playing system by Donald Brown is unlike any other fantasy game available for the Apple® computer.

That character may then be taken on a series of adventures. Not just on one game disk, but on a whole series of SwordThrust adventures.

Not your typical "hack and slash" adventure game, rather one that will require skill, cunning and a lot of thought.

The Case of the Sultan's Pearl

Twelve centuries ago, King Drugia was mocking the young muslim that he had invited for supper. "You have as much chance of ruling the island as I have of finding a pearl in this oyster!" The King laughed, swallowed the oyster whole, and promptly choked to death. During the autopsy, one large white pearl was found in his throat. The pearl soon became the symbol of the favour of Allah, and every year a solemn ceremony grants the power of the sultanship to whoever holds the pearl.

Many years ago you had made friends with Shadom gen-Harouk, the current sultan, and so you were invited to the ceremony. You went, expecting a pleasant vacation.

A few hours before the ceremony, you were awakened from your sleep. One of the Sultan's guards had been murdered, and the pearl was missing! You must find the murderer and recover the pearl or else the sultanship is lost!

The Case of the Sultan's Pearl is the fourth adventure in the exciting SwordThrust series. You must have the SwordThrust master diskette to play.

**NOT A COMPLETE GAME. REQUIRES
