## VIRUS

VIRUS is an adventure competition in which you could win a fabulous Sinclair plus 3 computer.

You must help Time Lord Doctor Goc to defeat the evil Mr X who is planning to infect all Spectrum adventures with a deadly virus.

You must tell the Doctor what to do using sentences such as "Get the gold piece and examine it." or simply "Get gold".

You can talk to the various characters in the adventure if you SAY TO (character) "WHATEVER YOU WANT TO SAY".

Direction commands can be shortened to their initial letter. For other commands use the first five letters. You may find RAM SAVE and RAM LOAD helpful.

If you are stuck for words then type WORDS.

VIRUS was written with Gilsoft's P.A.W.
