The story so far

It is the year 1884, somewhere in the Wild West. You are on the track of a notorious gang of robbers who have gone to ground near an abandoned mining town, deep in Indian territory. They have hidden their loot — the proceeds of a bank hold-up — somewhere in the town. Your objective is to gain promotion to the rank of Marshal. To do this you must outwit and outgun the robbers, collect as much loot as possible and piece together clues on how to escape!

How to load the game

Make sure the Commodore 64, the TV and the cassette unit are correctly connected to each other and to the mains. Then switch on. Insert the cassette into the cassette unit and make sure that it is fully rewound. Hold down the SHIFT key and press the RUN/STOP key. The program will load (taking about 15 minutes) and start automatically.
