

## LOADING

To load our games into your computer, type CHAIN "" and press RETURN. Now press the play button on your cassette player and the program will start to load. If you do not have motor control press the stop button on your cassette player after each file has loaded and press play again when the word 'Searching' appears on the screen.

If you have difficulty loading any program, make small adjustments to the volume and tone controls. If the tape still fails to load, test your equipment with another tape before returning the program to us for a free replacement.

# EPIC SOFTWARE

**10 Gladstone Street, Kibworth Beauchamp, Leicester**

Thank you for your order which we have pleasure in fulfilling. If you require assistance with any of our adventures we will be happy to help. All we ask is that you enclose a stamped self-addressed envelope with your query. It would also help if you would mention any objects found and puzzles solved so far, etc.

*We wish you many weeks of happy adventuring*

*EPIC*
