Create and Print Professional Labels In Minutes

**Windows
95
Compatible**

CompuWorks Labels for Windows 95 & NT

The most comprehensive labeling product for Windows 95 and NT. With CompuWorks Labels you can create custom labels any size from 1" X 1" to 8.5" X 11". Create labels for mail lists, shipping labels, disk labels, file folders, video labels, name tags, business cards and much more!

Unlike other label programs, CompuWorks Labels prints all major UPC barcode formats including UPC A, E, EAN 8 & 13, Code 39 & 128, ISBN, ISSN and PostNet barcodes. CompuWorks Labels includes over 200 Avery label and envelope formats or create your own custom size. Design your label using almost any graphic image - there are over 100 color graphics included. This full-featured program also incorporates complete text editing features.

Use the CompuWorks database for all of your mail list needs. The built-in database allows for multiple lists, important fields and enables you to sort and select by any field. Import data into the database from any application that exports text files. And, CompuWorks Labels allows you to access most major databases right from the program.

Additional Key Features:

- Scalable bar codes
- Imports over 19 graphic file formats
- Print preview
- Label skip feature
- Easy text justification

- Prints virtually any kind of label
- Prints all major barcodes
- Includes pre-printed designer labels

**Includes
200
Label Formats**
