

# Ziggurat OF DREAD

For the 48K Sinclair ZX Spectrum

## ZIGGARAT OF DREAD

For many years the people of Grax have lived in fear of the priests of Dreshnig.

The priests have always remained in their mighty ziggurat temple; invulnerable. Sometimes, in the dead of night, bands of creatures – the priests mutated human slaves – descend on the town of Grax and kidnap a dozen or more unfortunate people. Their fate can only be guessed at.

Nobody has ever managed to find a way of entering the ziggurat though many a distraught parent or spouse has tried.

On their last raid the creatures of the priests took your sister, Yelda, and you have sworn to get your revenge. Your brother, Torvil, also swore revenge and went to the ziggurat to search. He came back with a mysterious, rune covered, disc.

Not wanting your brother to enter the ziggurat and die, you say nothing about the disc . . . but you have seen such a disc before. Around the neck of one of the priests hideous slaves.

Could this be the means of entering the temple?

You believe so, and you set out to enter the ziggurat and rescue your sister or to wreak a terrible vengeance on those who have taken her.

Once inside the 'Ziggurat of Dread' you will have to fight for your continued survival against the foul minions of Dreshnig.

If your luck runs out you may even stumble into Dreshnig itself.

**ZIGGARAT OF DREAD** is just one of a new series of exciting adventures from C.C.I. SOFTWARE.

Each one has been specially designed to test your ingenuity.

## EXCLUSIVE TO C.C.I. BUYERS

We are pleased that you have bought our products and as a sign of our pleasure we offer you the following new games at a price of £0.50p off the R.R.P. Simply return the coupon on the front of this cover either directly to us or to your nearest software stockist and claim 50p off your next C.C.I. software purchase "Only one coupon per game" These include:

### TOBOR

Written entirely in machine code this original game of strategy and skill takes you to the planet Kalanium, guarded by squadrons of robots called TOBOR. With 6 levels of difficulty this unique game tests your wits to the limit.

### GRID-BUG

A machine code game that becomes so addictive that one hour of computer time becomes 3 hours of normal human time.

### 3D STAR WARS

In your most up-to-date starfighter which is equipped with long and short range scanners you must defend the universe. There are 10 sets of 18 aliens to be destroyed all different in shape and power. This all machine code game uses 700 characters and the graphic effects make it a true 3D mind-blowing game.

### ZIGGARAT OF DREAD

On their last raid the mutant creatures of the priests took your sister into the dreaded mighty Ziggurat temple. You have to get her out.

### LOST OVER BERMUDA

Calling Nassau Tower... Mayday... Mayday... can you help? The Bermuda Triangle has claimed another victim, can you investigate, can you de-program the ATLANTIANS ANOMALY TRANSMITTER? If not you won't come back!

### SECURITY SHELTER

Another nuclear war, you are a "GATHERER" with special powers, find the "PAST-TIMERS" building, gain entry and discover the building's ultimate secret. IF YOU CAN!
