

ELECTRONIC DOCUMENTATION

WWW.ULTIMAONLINE.COM

Because *Ultima Online* is a constantly changing game, traditional printed documentation would quickly fall out of date. Therefore, complete, up-to-date electronic documentation is part of the game's web site. This allows us to provide you with hundreds of pages' worth of accurate information, clearly divided into easy-to-read sections and all in full color!

Our site is more than just documentation — you can chat, register a guild, get technical support, view full-color game animations, plus submit electronic newspaper articles, order game merchandise and more.
