IN-DEPTH REVIEWS

Solid reports on the latest adventure and role-playing games for all computer systems — months before they're covered in most magazines. Plus news about upcoming titles and existing games that have finally been converted for *your* computer.

CLUES & WALKTHROUGHS

Clues sent in by readers appear in *Keys to the Kingdoms*, and each issue has coded solutions to two recent games. If we publish your solution, you'll get your choice of any adventure.

FREE ADS

In *Swap Shop* ads you can trade/sell old adventures, and can request help on new ones in free *Waiting for Duffy* ads.

FREE GAMES

Every other month we randomly award a new adventure game to a subscriber. From names of those who send in clues to *Keys to the Kingdoms* each month we randomly choose another winner, and frequently sponsor special contests.

DISCOUNTS ON SOFTWARE

Save 10%-20% by ordering from our "Passport to Adventure" Department. For each game ordered your subscription is extended three issues. So if you buy four games a year, your *QuestBusters* is completely free!

Mapmaking Made Easy!

Did you spend more time mapping your latest quest than enjoying the adventure? Then you need the Official QuestBusters Mapping Kit. By drawing preliminary maps on our plastic-coated Mapping Template, you can simply wipe off a room or connection to make revisions instead of redrawing the entire map. When sure of yourself, then you can copy it onto one of the 50 Mapping Sheets provided with each kit.

With Kit A, created for text and graphic games, you get 20 Clue & Puzzle sheets for keeping track of objects and problems.

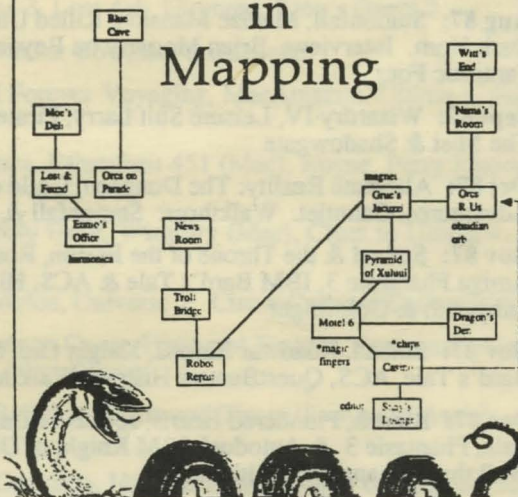

Designed for role-playing games, Kit B's map sheets are far easier to use than ordinary graph paper, and you get 20 Character Statistic Sheets and 20 Town Sheets for recording spells, weapons, items sold in shops and so on.

Both kits include *Adventures in Mapping*, which details the QuestBusters Cartography System. Either Kit costs \$6.00.
