Supreme Interview after I dominate at Nintari Championship!

Lather: So, Mr. Badmish,
How does it feel to be the
supreme exalted world
Nintari Champion?

Me: Pretty good, Stan. But
I gotta tell ya: it took
a lot of hard work for
me to get where I am
today.

Lather: I guess so. What
kind of things did you
do to get ready for this
championship?

Me: I had a very strict
training regiment:
Every day I'd get up
and skate 3 miles down
to the video arcade
and play Space Busters
for a while. Then I'd

head back home after
my parents went to work
and practice Nintari.

Lather: I see. What other
things did you do to
get ready for the
championship?

Me: Well, I had a strict
diet: Doritos chips,
Slamdunk Cola, and
products made with
Tootsweet were almost
all that I would let
myself eat.

Lather: That's impressive
self discipline!

Me: Well if you want to
hone your skills to
razor sharpness, you
have to make a few
sacrifices.

LEONA HUMPHORD: A CITIZEN
WE CAN BE PROUD OF *Killing!*

by Henrietta Sckisser.

FRUMPTON-Frumptonians are privileged to enjoy the high quality of life in our fair city made possible by pillars of the community like Leona Humphord.

Outstanding community service programs such as the upcoming Tootsweet Annual Frumpton Frog Jump have long been a hallmark of the Humpford family, enriching Frumptonians both young and old for nearly two generations. Following in the footsteps of the patriarch of the Humpford clan, Col. Rev. Dr. Hipolytus Mumford Humpford, (may he rest in peace) and her

Leona Humphord

husband Harold Henry Humpford (may he also rest in peace), Leona Humphord has continued the family's tradition of generosity to the citizens of Frumpton.

Indeed, even in the midst of deep personal grief, she affirmed the Humpford civic commitment, remarking to a group of reporters shortly after her husband's untimely demise in a tragic golfing accident, "Harold guaranteed in his will that the sludgeworks will continue to benefit all the citizens of Frumpton as long as sludge can be turned into Tootsweet. I will do everything in my power to make sure the terms of his will are fulfilled."

CARE OF THE COMMON BULLFROG

By Prof. J. Arthur Töedklesser

The North American spotted bullfrog (*jumpinus greenwartia*) has long been maligned as a source for the unpleasant skin condition commonly known as warts. This assumption is not only medically invalid but also a grave disservice to a benevolent and helpful species. As any young boy can tell you, frogs are great fun and make excellent pets as long as you take a few basic steps to care for them. To keep your hopper in good health you need to make

sure he stays moist and cool. Check his skin: if it's cold and slimy then your frog is probably in good condition. As far as food goes, frogs can eat almost any kind of insect but they are especially partial to ants and bees. You should try to feed your amphibian friend at least once a day, but he can go without food for several if he has to. It's also a good idea to let your web-

footed pal take a swim on a regular basis: it's good for his skin and will keep him in good spirits. A bathtub-sized pool is ideal for your little green buddy to bathe in. Following these guidelines will keep both you and your frog happy and healthy.

Local Boy Wins Regional Title

Frumpton's own William J. Beamish has won the western regional title for the Nintari "Monster Squad" championships, qualifying him for the national championships to be held later this summer. Beamish's score of 2,349,997,186 was enough to best his closest competitor by eighty thousand points. The Nintari Corporation plans to award the winner of the national

championships a scholarship and will feature him in several upcoming nationally-aired commercials. He will also receive a lifetime supply of video games, a stereo, a minibike and a trip to space camp. When asked the secret to his success, the nine year-old Beamish replied "I practice a lot and drink Slamdunk cola while I play: it improves my reflexes."

But yet the understatement of such lies is only such that a small midget can comprehend! The project has over 1 million

DISK PROBLEMS

TECHNICAL HELP (MS-DOS ONLY)

If you are having problems with a game disk or if the game locks up at any point, it may be because the game conflicts with the current configuration of your computer or any memory resident programs that are loaded. Before assuming that the disk is faulty, please boot your system with a "Dynamix Boot Disk," a disk containing only the operating system, to see if the problem persists. Following are instructions on how to create a Dynamix Boot Disk. In the instructions, it is assumed that you are using floppy drive A and hard drive C. If your configuration is different, replace the drive label in the instructions with that matches your setup.

FORMATTING FROM A HARD DRIVE

A) Place a blank disk in drive A.

B) At the C prompt, type: **format a:/s**

NOTE: If your A drive is a high density drive and you are using double density disks, you will need to type: **format a:/4/s** (for 5.25" disks)
or type: **format a:/n:9/t:80/s** (for 3.5" disks).

FORMATTING FROM A DISKETTE DRIVE

A) Place your DOS disk in drive A.

B) At the A prompt, type: **format a:/s** (be sure to switch to a blank disk when prompted by the FORMAT program.)

NOTE: If your A drive is a high density drive and you are using double density disks, you will need to type: **format a:/4/s** (for 5.25" disks) or type: **format a:/n:9/t:80/s** (for 3.5" disks).

C) Press [ENTER]

D) Respond to the DOS prompts.

Now you should create a CONFIG.SYS file on your Dynamix Boot Disk, with a files=20 statement. Follow these instructions to create this file:

A) Type: **a: [ENTER]**

B) Type: **copy con config.sys [ENTER]**

C) Type: **files=20 [ENTER]**

D) Press **F6 [ENTER]**

You should see the message: "1 File(s) copied". You will now have to re-boot your computer with your new Dynamix Boot Disk in the drive. Turn your computer off then on or press **Ctrl-Alt-Del**.

If booting your computer with your new Dynamix Boot Disk doesn't clear up the problem you are encountering, call (209) 683-8989 for technical help. Our technical staff will be happy to help you.

TECHNICAL HELP (ALL SYSTEMS)

Technical assistance is only a telephone call away. Call (209) 683-8989, 8 A.M.- 5 P.M. Pacific Time for convenient, person-to-person service, or if you prefer, you may request assistance by mail. If you choose to write to us with your request, please state your computer type and the nature of your problem.

REPLACEMENT DISK

If you find that you need to send for replacement diskettes, send the original disk 1 in the size you need (3.5" or 5.25") to:

Sierra On-Line/Dynamix
P.O. Box 485
Coarsegold, CA 93614
Attention: RETURNS

Be sure to include a note stating your computer type, and the size of diskette you need (5.25" or 3.5").

We will gladly replace your program free of charge for the first 90 days of ownership (please enclose a copy of your dated sales receipt with your request). After 90 days there is a \$5.00 charge for 5.25" diskettes, and a \$10.00 charge for 3.5" diskettes.

Waiys!
