CD-ROM Catalog

**The software listed in ;
this catalog is currently not
available in the U.K.**

Sony Electronic Publishing Company (SEPC) is the newest subsidiary of Sony Software Corporation. SEPC creates, produces and distributes interactive and multimedia entertainment and information software products.

The development of the CD-ROM consumer market is just one part of SEPC's commitment to electronic publishing. With its advanced research capabilities, distribution network, and extensive library featuring a variety of products from children's books to encyclopedias, SEPC offers the most current selections and provides a wide variety of titles for consumer enjoyment.

Sony's technological achievements and commitment to consumers have earned the company respect worldwide. That commitment, coupled with the extensive resources of Columbia Pictures Entertainment, Inc. and Sony Music Entertainment, Inc., also subsidiaries of Sony Software Corporation, will enhance SEPC's ability to develop the outstanding products its customers demand.

This catalog contains the names and descriptions of a multitude of CD-ROM products from a variety of independent publishers. The products cover every conceivable subject from games and entertainment programs, to dictionaries, encyclopedias and other reference works, to specialized programs about topics like medicine and nutrition. Some of the products contain graphics or artwork that you can view with your favorite "paint" program; others use audio, too, as a further enhancement to their already stimulating programs.

Each product description tells you who the intended user is for a product as well as what the product requires from the user (e.g., type of computer, operating system, etc.)

Product information includes a price preceded by a four-digit product code. Use this product code to facilitate placing your order. You can find order forms in the back of the catalog, or you can call **1-800-338-7834**.
