NSRT HAZARD REPORT: AMAZON, SOUTH A

THE MACUMA (AMAZON) REGION IS LOCATED IN THE NORTHWEST ANDES. THIS IS A MOUNTAINOUS TERRAIN OF VOLCANOES SURROUNDED BY DENSE RAIN FOREST. THIS PART OF THE AMAZON BASIN WAS NEVER SEEN BY WHITE MEN UNTIL THE TWENTIETH CENTURY AND IS STILL LARGELY UNEXPLORED. NOBODY REALLY KNOWS WHAT IS IN THERE.

THE AMAZON JUNGLES ARE RICH IN MINERAL RESOURCES OF ALL KINDS. BUT MANY GEOLOGICAL EXPEDITIONS HAVE BEEN INEXPLICABLY LOST WITH NO SURVIVORS. SHELL OIL REPORT CONCLUDED IN 1972 "THIS AREA HAS SOME UNKNOWN HAZARD. NOBODY REALLY KNOWS WHAT IS IN THERE."

INTERNAL USE ONLY

CONFID

INTERNAL USE ONLY

**POTENTIALLY DANGEROUS ANIMAL SPECIES
(AMAZON REGION):**

JAGUAR. No fear of man. Attacks most often occur because parties stumble upon them unexpectedly in dense jungle. To be avoided.

PECCARY (WILD BOAR). Extremely unpredictable and dangerous. To be avoided.

SAGENO LIZARD. Lizard far more poisonous than gila monster. To be avoided.

ALLIGATOR (CAYMAN). Very aggressive. River swimming must be avoided at all times.

PIRANHA. Vicious small fish. Overrated, but avoid river swimming.

STINGRAY. Found near river banks. Delivers incapacitating sting if stepped on.

ELECTRIC EEL. Freshwater streams and ponds. Shock can be fatal.

SHARK. Sharks have been spotted as far west as Iquitos, 2300 miles from the Atlantic.

MONKEY. Monkeys commonly harrass expeditions and steal equipment. There are unconfirmed reports of rabid monkeys as well.

SNAKES. Two hundred species of poisonous snakes, all rare. Bushmaster, Fer De Lance, and Cascabel are lethal within 20 minutes of bite.

VAMPIRE BATS. Commonly found, attack at night. They may carry rabies.

NSRT FIELD PARTY REGULATIONS

NSRT FIELD EQUIPMENT PACKS

All Field Parties are equipped with everything they will need for field work. It is the responsibility of the Field Parties to thoroughly inventory and examine their equipment!

USE OF THE NSRT FIELD COMPUTER

All Field Parties are provided with a portable computer for use in communicating with NSRT Base.

After turning on the computer, an Input Code will be required to open transmission.

Each Field Party will be informed of their Standard Input Code, and their Emergency Input Code. Standard Codes can be used at any time favorable for satellite transmission. Emergency Codes should be used only during emergencies.

Field Parties should make a note of their respective codes.

NSRT CODED FIELD MAP COORDINATES

All NSRT Field Maps are security coded data coordinates to field operatives by Rules for Coordinate Transmission via as follows:

1. X Coordinate is always two letter
Coordinate is always a letter and
2. X Coordinate is always transmit
3. Field operatives should always
their location.
4. In situations where field operating trouble determining transmit map coordinates :
operatives. Remember: N' anywhere on the surface

NATIONAL SATELLITE RESOURCES TECHNOLOGY
WASHINGTON, DC

From: Personnel Office, NSRT
To: New Recruit, Amazon Project

Welcome to NSRT! We trust you will enjoy working with us. NSRT is a very sophisticated operation - but we think you will fit right in!

To review details, you are being hired as a field-capable computer expert for \$3000 a week. In addition, you will receive the standard NSRT hazardous duty life insurance policy of \$1,000,000.

R. B. Murphy, head of NSRT, wants to greet you personally. But meanwhile familiarize yourself with the enclosed background reports on NSRT, and the Amazon Project.

Good Luck!

TOP SECRET TOP SECRET

AMAZON FIELD PROJECT

Background:

National Satellite Resource Technology has been hired to find a source of DV emeralds somewhere in the world. These emeralds contain microscopic platinum impurities, and are essential to secret projects in national defense. We suspect a source of DV emeralds exists in the high Amazon jungles of South America, near the site of a legendary lost city, Chak. A full NSRT expedition was sent into the field 27 days ago in absolute secrecy.

Present Status:

Our Field Party has encountered serious difficulties. Contact by satellite with NSRT Base has been intermittent. Several of the Party have died. The Field Party has not found either the emeralds or the city, although their last report indicated they were close. Last reported coordinates were ZV, B6.

Present Recommendations:

The Field Party may experience further trouble. Bearing this in mind, we recommend that NSRT hire one extremely competent field agent with computer experience. In the event of further difficulty or losses we would send this single agent into the field. Needless to say the person must be well-chosen. The assignment is extremely hazardous.

MICHAEL CRICHTON

TOP SECRET

The Amazon jungle. Volcanic, dangerous, still unexplored. Home of the jaguar. The alligator. Two hundred species of poisonous snakes. And natives whose culinary habits, while only rumored, make you very uncomfortable. Why, you wonder, would anyone want to go there? More to the point, why would anyone want you to go there?

But there's no time for questions right now. Because right now you're in the Communications Control Room of your new employer: National Satellite Resource Technology, a top-secret, high-tech research consulting firm. And at NSRT, things happen fast.

Standing in the control room, you watch an anxiously-awaited satellite transmission just coming in from the Amazon field team—the team you've been hired to help. As you watch the transmission, you realize that something is terribly wrong. No ordinary person could bear to watch what you see on the screen before you.

But you didn't get the job as special agent for NSRT by being ordinary—it took remarkable instincts, a coolly analytical mind, and a superlative skill with computers.

"This is the future of fiction—and it's fun."

Michael Crichton

They are abilities that have gotten you far. But as you go to receive the details of your first assignment, you realize that those same abilities are going to have to get you a lot farther—and very soon, at that.

Amazon is the first computer adventure game to be developed by world-renowned science fiction author Michael

Crichton. It brings you state-of-the-art color graphics and overlays as well as a phenomenal range of special effects. With multiple disks and a choice of three skill levels,

Amazon provides many hours of exciting and intense game play. Mr. Crichton's elegant game design includes text that is supremely imaginative, challenging, and—when you least expect it—witty.

MICHAEL CRICHTON, world famous novelist and filmmaker, is best known for his novels **The Andromeda Strain**, **The Terminal Man** and **Congo**, and for the films **Coma** and **The Great Train Robbery**. **Amazon** is Mr. Crichton's first computer adventure program. He was assisted in its production by David Durand, a film graphics illustrator, and by programmer Stephen Warady.
