The Easy Way To Organize Your Finances!

CompuWorks MONEY Manager

No matter how much you earn, keeping track of your finances is always difficult. MONEY Manager takes care of all the hard work for you. Spend a few minutes entering details every week and it'll help you keep track of your finances and budgets for the months and years ahead.

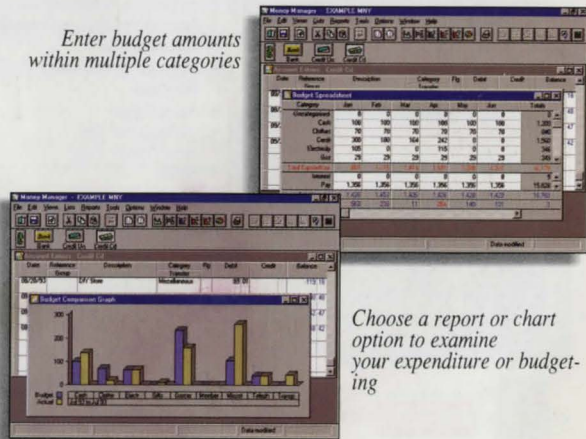

CompuWorks' MONEY Manager's main screen follows a simple bank statement format so it's easy to understand.

- Look at on-screen statements for all your bank, credit union and credit card accounts.
- Pop-up hints are on-hand to find your way around easily.
- Includes the powerful "auto-reconcile" function, to match written statements with the figures you've entered.
- Produce charts and reports to match your income against all the types of expenditures you've made.
- Produce a variety of plans to work out what will happen if you increase your spending on individual areas.
- Make a note of which items were for personal or business use to ensure you claim everything you're entitled to.
- Handles up to 40 accounts, lets you transfer money between them and highlights balances which rise and fall sharply.
