# ALL-IN-ONE 15

Finally, an All-In-One productivity package that gives you over 15 useful applications for the Home or Office. This program features fully integrated applications that operate in a "Common Menu" environment.

The All-In-One 15 package features an easy-to-use standardized interface, includes a clear and concise manual, and supports the most popular printers on the market.

With the All-In-One 15 you can: Balance your checkbook • Calculate your home budget • Write letters and notes • Check spelling quickly • Keep track of appointments and special dates • Solve complex financial calculations easily • Set DOS menus • Set daily alarms • Keep track of names, addresses, phone numbers and special contacts • Print calendars • Create, Edit, Sort, Search, Modify dBase™ files • Print mailing lists, labels or envelopes • Keep multiple diaries • Perform calculations with history tracking • Create form letters • Create invoices • and much more...

### Key Applications Include:

#### Word Processing with:

- Auto word wrap
- Block editing
- Smart page break
- Import/Export text
- Overwrite mode

#### Spell Checker with:

- 60,000 word dictionary
- Auto backup of original document
- Unlimited expandability
- Unlimited source size

#### Database with:

- Create or modify dBase™ compatible files
- Browse & edit mode
- String & Substring search
- Import/Export from text files
- Custom report generator

#### Address Book with:

- Unlimited number of entries
- Scrolling list window
- Print entries as mailing labels, envelopes or in "Black Book" format
- Full search capability
- User definable groups

#### Time Manager with:

- Scrolling monthly calendar
- 80 column daily note pad
- Up to 15 daily alarms with messages
- Calendar Printer with notes

#### DOS Shell with:

- The capability to run other DOS programs with only 4K of memory overhead
- A self-programming menu lets you run any DOS application from a common menu

Whether you are a first time user, or an experienced professional, you will not find a more useful package at twice the price!

**THE ALL-IN-ONE PRODUCTIVITY TOOL FOR THE PC**

**\$29.99** IBM DUAL PACK 3.5" & 5.25"

## SCREEN SAVER PLUS

Screen Saver Plus contains programs that will protect your computer monitor from "phosphor etching" and prevent "ghosting".

Phosphor etching occurs when your monitor displays the same image for an extended period of time. Words and characters become "etched" or "burned" into the screen and become "ghost" images that never disappear.

Screen Saver Plus helps you protect your investment in today's expensive monitors and includes the following programs:

- **Screen Blank** A "transparent" screen blanking utility that turns your screen off after a pre-set period of time, which you determine.
- **Message Minder™** Leave a message to inform others where you have gone and when you expect to return.
- **Circle Art/Line Art** These programs produce random lines and circles while your computer is idle. When the program begins you can type a short message to let others know of your whereabouts and when you plan to return.
- **Hand Off Fun** A surprise screen pops up to let others know you don't want them using your computer.
- **Work Fun** Take a work break while your computer does the pacing for you.
- **Zippy Art** Quick color graphics in unique and eye catching patterns.

Screen Saver Plus also includes four Bonus programs: Wiz-Write, a feature-packed word processing program; Wiz-Term, a full-featured telecommunication program; Wiz-Print, a custom print code program and Wiz-View, a file viewing program.

Not Windows compatible.

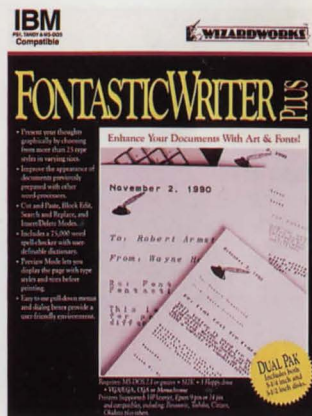

## FONTASTIC WRITER PLUS

A complete, easy to use word-processing program with over 25 built-in fonts and electronic spelling checker.

At last! A graphic word-processing program for planning, writing and perfecting text that will add creative "snap" to documents. Choose from a library of more than 25 type fonts in varying sizes to spruce up any letter or presentation. Fontastic Writer Plus also includes 24 pin and laser printer drivers that allow your documents to print out just like the pros'.

Fontastic Writer Plus uses pull-down menus and dialog boxes so it's easy to use! Editing is also easy, and includes search and replace, cut and paste, left/right justification, line or word centering, underlining, and an electronic dictionary that scans documents and corrects your mistakes.

You can also use Fontastic Writer Plus and its font library to update documents from Easy Working Writer™ and Word Writer™ to name a few. Simply type the commands in your old files and Fontastic Writer Plus does the rest.

**\$19.99** IBM DUAL PACK  
3.5" & 5.25"

## IMAGE LABELS

Labels go better with graphics!

With Image Labels, you design your own custom looking labels using built-in type fonts and electronic clip art. Choose from pre-formatted designs of the most popular labels sizes including: mailing, pricing, Rolodex® cards and name tags, or design your own graphic labels.

Image Labels also lets you use graphics from Paintbrush™ and Print Shop™ compatible art libraries that will give you virtually a limitless supply of graphic art. You can even use scanned images on your label designs to put corporate logos, school mascots or a variety of other images on your labels.

With Image Labels it's easy to design, illustrate, store and print a label for practically any business, school or personal use!

**\$19.99** IBM DUAL PACK  
3.5" & 5.25"

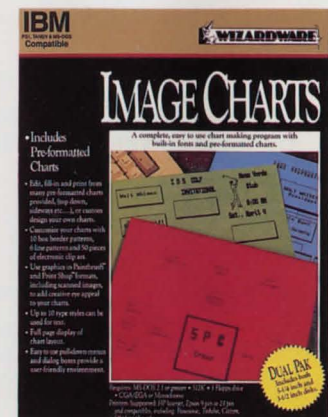

## IMAGE CHARTS

A complete, easy to use chart-making program with built-in fonts and pre-formatted charts.

Imagine the ability to create, illustrate, fill-in and print an unlimited amount of organizational, project or tournament charts. Image Charts makes it all possible.

Pull-down menus and dialog boxes guide you through the design process with ease and clarity. Need a shadowed box, one with broken or double lines for emphasis? It's all built into Image Charts.

Many of the most popular chart layouts are already pre-formatted and included in the program. Simply fill in the boxes and print. You can also cut and paste for existing charts to make an unlimited supply of new and unique charts for any application. Image Charts gives you the power to present the information you want, the way you want it, graphically!

**\$19.99** IBM DUAL PACK  
3.5" & 5.25"

## PC SUPERCHARGER

Easy-to-use utilities that will increase the processing speed of your computer. Utilities include:

- **Ram Charger™** conducts a series of 20 tests to determine the optimum "refresh" rate for any system and sets a new refresh value for optimum performance.
- **Ram Disk** allows you to use a portion of your computer's memory to function as an additional disk drive without accessing a floppy or hard drive which is a slower process.
- **Quick Key™** allows you to rapidly move around the screen without the aid of a mouse.
- **Floppy Optimizer** decreases the delay speed which increases the speed at which your drive runs.

PC Supercharger also includes four Bonus programs: Wiz-Write, feature-packed word processing; Wiz-Term telecommunications; Wiz-Print, custom print code program and Wiz-View, file viewing program.

## HARD DRIVE MANAGER

Contains hard drive back-up capabilities

Hard Drive Manager creates an environment in which you can easily manage files, directories, floppy disks and hard disks without an in-depth knowledge of the DOS command structure. The result is that you work faster, concentrating on your task rather than worrying about complicated DOS commands or directories. Pull-down menus and mouse support provide an easy-to-work interface.

Key features include:

- HD Back-Up • File Recovery • File compression
- Password Protection • DOS Commands

## SPREADSHEET-IT!

A complete, easy to use spreadsheet and planner

Contains pre-formatted examples, on-screen help and presentation printing. Performs tedious planning and calculation functions for business, home or school with a new quickness and ease.

To help you get started, SpreadSheet-It! contains pre-formatted examples of the most popular things people do with their spreadsheets. Pull-down menus and on-screen help will keep errors to a minimum.

Quickly analyze cash flow, plan budgets and calculate return on investments. By changing numbers and formulas with instant re-calculation on over 5000 cells, you are able to look at a wide range of what-if scenarios to help you make the "smart" decision.

## PUZZLEWORKS

Puzzleworks is the challenging computer version of the classic "slide puzzle" game

Included are over 20 graphical VGA gameboards which can be scrambled and then solved to provide many hours of entertainment and learning.

Puzzleworks generates its own artwork for gameboards including brightly colored lines, shapes and alphabetical tiles. A special gameboard maker is also included. Using the gameboard maker is easy and it lets you convert any GIF™ file from CompuServe or other sources into new Puzzleworks gameboards. This gives unlimited gameboard possibilities for fun or learning.

Puzzleworks lets you choose the complexity of your puzzle. The more tiles there are, the harder the puzzle is to solve. Individual tiles can be numbered for help with solving. An auto-solve routine lets you watch while the puzzle is solved by the computer. A game timer can also be used to measure your puzzle solving speed.

## FIND-IT!

Replaces cumbersome Windows file directory

Have you ever wondered where you saved your master copy of an important document and wasted hours of precious time searching for it? How about the name of that file you worked on over a month ago? Have you ever needed to locate a file by the contents, but you can't recall the file name? If the answer to these questions is yes, or if you have other file search and report needs, then you need Find-It!

Find-It! is a special utility program which lets you quickly locate any file on your hard drive. You can search for a file by name, text contents or date of creation. Other special options let you locate hidden files, do wildcard searches and view a list of your subdirectories.

Find-It! has a special Windows interface that lets you use its high-speed search capabilities instead of the cumbersome Windows file directory. Also included is a DOS version that performs extensive searches quickly. You can view the results of your search on your monitor or send hard copy to be printed.

\$29.99 IBM DUAL PACK 3.5" & 5.25"

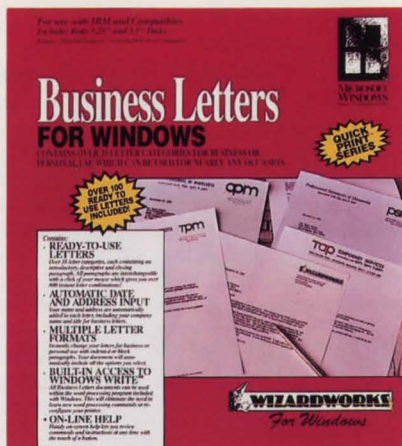

## BUSINESS LETTERS

Write correspondence letters with new found ease and save hours of precious time

Included are 100 ready-to-use letters in over 35 categories, which cover a wide range of subjects for business or personal use. Each letter includes an introductory, body and closing paragraph. You can select letter sections from any category and combine them with letter sections from another category. In fact, you can create completely new categories of letters with the simple click of your mouse by combining different paragraph sections from different letter categories, which gives you over 800 instant letter combinations!

All letters load directly into the Window Write™ word processor. You can then customize your letters by editing the text, changing fonts and then printing. All of the options and special features built into your Window Write™ can be used to edit your letters, and give you a professional looking letter every time. New letters can be easily added to your library, giving you an unlimited number of base letter templates.

Business Letters is an ideal tool for office, home or school use.

**\$3999** IBM DUAL PACK  
3.5" & 5.25"

## BUSINESS FORMS

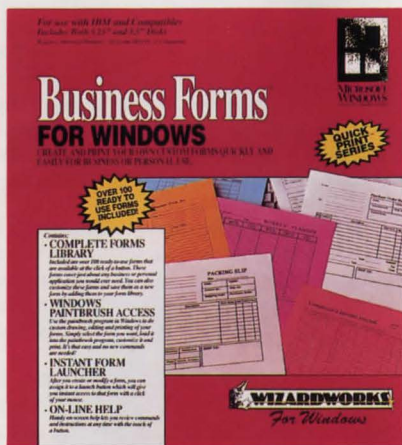

Create and print forms with ease, and save hours of precious time

Included are over 100 ready-to-use forms covering a wide range of subjects for business, personal or educational use.

**Business Forms is flexible.** It is designed to let you load your selected form directly into the Paintbrush program in Windows. You can then edit text, draw, add graphics or images and print out a customized form. Each customized form can be saved and added to your form library. You can also assign up to 52 forms which can be instantly loaded into the Paintbrush program with the simple click of your mouse.

**Business Forms is powerful.** Because you use the Paintbrush program in Windows, you have total use of all the great design and printing features already included in Windows. By using the built-in DOS shell, you can visit DOS and return to Business Forms instantly. By using the form launch buttons, you will have instant access to your most frequently used forms.

**Business Forms is an ideal productivity tool** for office, home or school use.

**\$3999** IBM DUAL PACK  
3.5" & 5.25"

## SCREEN SHOW

Customize your Windows 3.0 Environment

Key Features include:

- **Screen Savers** Special "behind the scenes" monitor protection with your choice of 10 colorful graphic displays.
- **Automatic Screen Saver Activator** Set blanking or graphics delay time for 1-99 minutes. You can also control the speed of the graphic being displayed.
- **Icon Maker Toolkit** Create or modify any icon available today with an easy-to-use interface.
- **Icon Library** Over 200 colorful, ready-to-use icons.
- **Password Protection** Prevent unwanted access to your system in your absence.

## WALLPAPER ART GALLERY

Add dazzling graphic art images to jazz up your Microsoft Windows 3.0 backgrounds.

Key Features include:

- **Art Library** Over six (6) megabytes of VGA graphics that will add eye pleasing art and images to your Windows backgrounds.
- **Image Converter** Change your favorite GIF graphic images into new Windows wallpaper backgrounds. This opens literally thousands of images available for your backgrounds.
- **Art Director** Load your graphic images directly into the Windows Paintbrush program and customize them by adding text, changing colors, or actually changing the artwork.
- **Carousel** Changes the background to a new wallpaper every time you run your Windows program.

## WINDOWS LAUNCHER!

Tired of clicking through endless program groups just to run a single program?

Key Features include:

- **Menu Master** Install up to 52 programs that can be launched by a single mouse click in any of four modes (Normal, Maximize, Minimize and Inactive).
- **Program Manager Bypass** Launch programs from different program groups without having to go into the Windows Program Manager. Instant menu revision allows you to enter the normal program manager at any time.
- **Built-In DOS Shell** Easily toggle between Windows and DOS applications.
- **Built-In Directory Search** Quickly locate programs in any directory or drive location.

## WINMAIL

The Professional Mail List Manager for Windows

Easy-to-use and learn; be an expert in 10 minutes. Quick-and-easy bulk rate sorting, indexing and labeling. Easily merge names and addresses into the body of your letters and documents. Streamline the entire mailing process with this fast and easy list management software. On-line help in Windows at the click of the mouse button.

- Save money! Print Postnet barcodes for ZIP+ 4; with 9, 5 and 3 digit zip code sorting on your own label
- Sort for bulk mail label printing • Place clip art images on your labels • Merge names and addresses into the body of your letters • Enter copy, edit and delete names from more than one list at a time • Automatically purge duplicates • 32,000 name capacity per database
- Sort your mailing by 9, 5, or 3 digit zip codes • Sort and search on any field including street name and house number • Six user-defined categories • Sort for bulk mail label printing • Select names by highlighting or by categories • Many ready-to-use label formats • 100 clip art images which may be placed on labels • Sequence counter available to number labels • Design your own label formats from 1" x 1" to 8.5" x 11.5"
- Import MY Mail List files, ASCII and dBase files • Export names to ASCII file or print to a file.

**\$3999** IBM DUAL PACK  
3.5" & 5.25"

## TIME IS MONEY

Financial Calculations for Windows

Time Is Money gives you many advanced financial calculations for home & car loans, leases, investments and annuities. Powerful windowing features allow you to compare many calculations on screen simultaneously.

### Home & Car Loans

- Calculate fixed and adjustable rate mortgages, finance charges and payments • Compare several mortgages or refinancing alternatives • Find the annual percentage rate (APR) • Compare several car deals • And more!

### Leases

- Compute payment amount, annual percentage rate (APR), residual value of asset, initial value of asset, lease term and lease factor • Schedule payments • And more!

### Investments and Bonds

- Future value of investments such as Keogh, 401K plans and CD's • Bond price and yield calculations • Compare treasury bills and government bonds • (CIYE) Coupon Issue Yield Equivalent

### Annuities

- Calculate payments, future value of deposits, deposits required to achieve a future value, simple interest, nominal and effective interest rates, internal rate of return (IRR) and loan prices.

**\$3999** IBM DUAL PACK  
3.5" & 5.25"

## BANNERS ON PARADE

With ready to use Banners, Signs, Cards & more

### Features include:

- Re-size feature for clip art
- Stretch type over many pages
- Rotate text over 90 or 180 degrees
- Get images directly from clipboard
- Supports all fonts supported by Windows

Banners on Parade helps you create large multi-page promotional and advertising materials. Banners on Parade is compatible with all printers supported by Windows 3.0—even Postscript. Works with Adobe® Type Font Manager for Windows, for crisp and clear banners.

Create your own art work with the Windows Paint Program that can be pasted anywhere on your banners, certificates, signs, cards or bumper stickers. Copy your created image to the Windows Clipboard and then paste directly to Banners On Parade. Once your images or text has been placed you may stretch, rotate or shrink it to any size.

**\$3999** IBM DUAL PACK  
3.5" & 5.25"

## DESIGNER LABELS

Create and print any label you can imagine

Make sure your labels look professional. It's your image—the first thing your customer will see!

With Designer Labels for Windows you can make a professional, first-class impression. Get away from labels that look like they were printed with a computer. Designer Labels for Windows gives you the freedom of using images, drawings, clip art graphics and proportionally-spaced fonts. With Designer Labels for Windows what you see is what you get. WOW what a difference!

Designer Labels for Windows lets you use your own clip art. Clip art, database fields, sequential counter and text may be moved and re-sized easily with the mouse. On-line help is context sensitive—there is no lengthy book to read.

Designer Labels for Windows includes a database for printing mail list names or inventory items. This list can be sorted for sequential printing of labels. Many lists can be created and saved.

More features than any other comparably priced labeling software. Use for any labeling job!

**\$3999** IBM DUAL PACK  
3.5" & 5.25"

## ADVANCED DUNGEONS & DRAGONS

Three great simulation games in one!

- **Heroes of the Lance** re-creates the epic battle between good and evil on the world of Krynn. You control eight Companions, one at a time, in real-time action and full animation. Guide these brave adventurers to retrieve the precious Disks of Mishakal, which is guarded by Khisanth—an ancient black dragon. Find the key to destroy Khisanth, and the Companions will take their first step to earn the noble title—Heroes of the Lance.
- **Dragons of the Flame** explodes with action! Your quest rescues slaves held by the ravaging Dragon armies in the foul fortress of Pax Tharkas. Control up to ten companions, one at a time. With real-time action and animation, your wits and reflexes had better be sharp. In this game you're either quick, or you're dead.
- **Hillsfar** is a different and exhilarating experience with every visit. Fight in the arena against raging minotaurs, ill-tempered orcs or insulted swordsmen. Enter different buildings, and your maze-running and lock-picking skills will be required. Think and move fast—these mini-games happen in real-time. For adventure, there's no place like Hillsfar!

**\$34.99** IBM 3.5" or IBM 5.25"

**\$39.99** AMIGA

## SUPER SIMULATIONS

Three Great Simulation Adventures For One Low Price!

**GATO™** puts you in the control room of a World War II, Gato class, combat submarine. This simulation provides superior graphics and exciting operations that will provide many hours of challenging entertainment.

With **GATO** you control your sub's power, speed, depth, periscope and heading; while avoiding torpedoes and mines. Use crew reports, radar, maps and periscope sightings to track enemy targets. Set the level of difficulty, choose day or night settings and select various features on your sub to engage enemy ships.

**Orbiter™** is your personal window to space flight command. Use your skill to command a successful shuttle launch; travel in orbit and view the earth, moon, stars and other orbiting objects; take a space walk; launch, rescue or repair satellites as well as other "missions." Finally, use your skills to safely return to earth.

An adventure in the **Orbiter** will take your computer to its limits and your imagination even further

**PT-109™** General Quarters! Man your Battle Stations! Take the helm of one of the most daring vessels of the World War II era, as you command the highly maneuverable PT-109.

**\$29.99** IBM 3.5" or 5.25" Macintosh

PT-109 provides four theatres of action, five levels of play, 45 different missions (day and night), realistic enemy ships and planes, four 90 degree views, lifelike explosions and realistic control panels and gauges, plus more.

## PHANTASIE-BONUS EDITION

Three Great Games For The Price Of One!

**Phantasie** When sorcery ruled and trolls walked the earth, a party of six intrepid adventurers set out to find the Nine Rings and use them to destroy the Dark Lord.

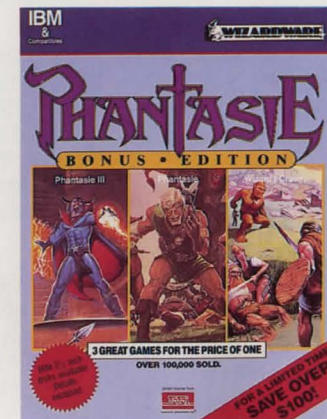

- Assemble your party of six characters from over 8 races and 6 classes
- Battle over 80 different monsters
- Explore vast wilderness and 10 dungeons
- Hi-Res multi-screen map
- 30-60 hours playtime

**Phantasie III: The Wrath of Nikademus** This time the Dark Lord has his evil sights set on conquering the entire world, and he must be stopped! Many new features, including more potent spells, weapons and character skills, enhanced graphics and speed of play.

- Transfer characters from Phantasie
- Battle over 80 monsters
- Enhanced Graphics
- Explore entire continents
- Over 60 hours of playtime

**Questron II** The only way to destroy the Evil Book of Magic is to prevent it from ever being created! And with these words from Mesron, the Great Wizard, you realize the adventure has only just begun.

- Stunning, state-of-the-art graphics
- 3-D displays
- Fully rendered and animated
- Overhead view

**\$19.99** IBM 3.5" or IBM 5.25"

**\$24.99** AMIGA

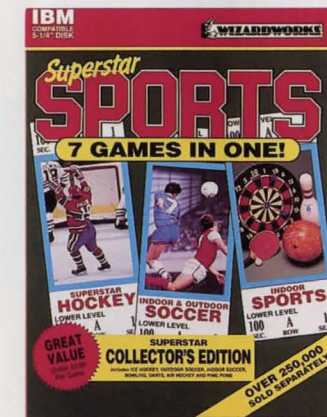

## 7-IN-ONE SUPERSTAR SPORTS

7-Games-In-One includes Ice Hockey, Outdoor Soccer, Indoor Soccer, Bowling, Darts, Air Hockey and Ping Pong

**Superstar Hockey** is a superb simulation with sharp graphics and realistic play that puts you in the middle of the action. Fire slap shots, check opponents, make passes, block shots and score goals or choose to play goaltender and make stick, pad and glove saves. Make trades, recruit players and conduct training camps.

**Superstar Outdoor and Indoor Soccer** contains all the action found in the real thing! Make sliding tackles, bounce headers and score goals in the outdoor version. Play against the computer or another player. Now put on your general manager's hat; you draft new players, make trades and call all strategies.

**Superstar Indoor Sports** contains four challenging games. **Bowling** lets you throw strikes, spares or even gutter balls—it even lets you control the curve of the ball and the slickness of the lane. **Darts** lets you use strategy and technique to set the aim, angle and power of your toss. **Airhockey** allows you to play the angles or go for the straight-in shot as the air puck "floats" around the table. The puck can be hit in 32 different directions at over 40 different rates of speed. **Ping Pong**

**\$29.99** IBM 3.5" or IBM 5.25"

can be played at various speed settings that make this game as easy or as hard as you wish. Choose either a side or end view of play.

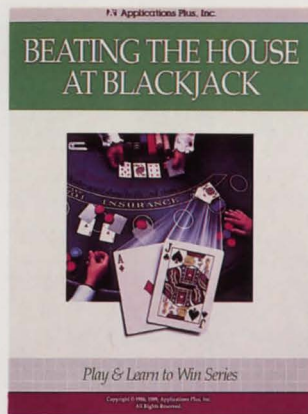

## BEATING THE HOUSE AT BLACKJACK

*Get ready for Vegas!*

Beating the House at Blackjack, with its many easy-to-use features can be used by the novice or the experienced player—to teach the skills to play winning Blackjack. All exercises and the simulated game provide immediate and comprehensive feedback to reinforce the learning process. Better than a book or class—maximize your retention through practice in a casino-like setting.

### **Includes:**

- Card Counting: Introduction, Theory, Values of the cards, How and why we do it, How and why it works.
- Exercises on card counting fundamentals.
- Strategy Tables—How to play every possible hand!
- Exercises to learn and master the entire strategy table
- Exercises to reinforce those difficult decision hands.

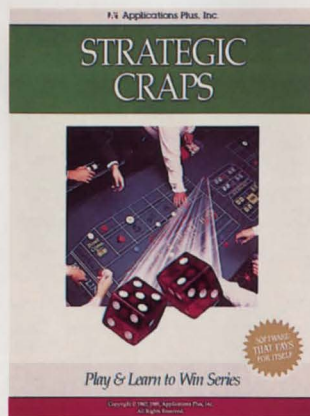

**\$1499** IBM 3.5" or 5.25"  
Apple II, Macintosh

## STRATEGIC CRAPS

*Test your skills and betting strategies!*

Strategic Craps with its easy-to-use features makes it valuable to the novice or the experienced player—to learn the basics of the game and to develop and test betting strategies over thousands of rolls of the dice. The booklet containing sample strategies and detailed bet explanations serves as a study guide and the pocket reference card can be used for checking hard to remember pay-off odds. Better than a book—learn through practice in a casino-like setting.

**\$1499** IBM 3.5" or 5.25"  
Apple II, Macintosh

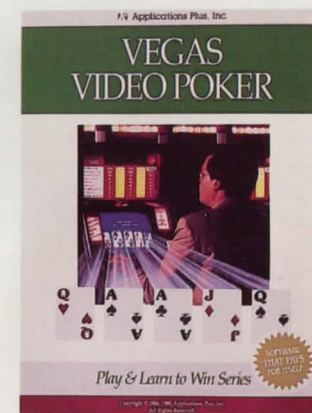

## VEGAS VIDEO POKER

*Computer simulations of over one-million hands!*

Video Poker is not a slot machine! Holding and discarding the right cards in Video Poker will determine your winnings—not chance alone. Video Poker is also different from playing at the poker table where you match skills against other players by betting, raising, bluffing and folding. Unlike table poker, you play against set odds with Video Poker—and there is only one best strategy to win.

This program duplicates the casino machines plus much more! The strategies in this program are based on computer simulations over millions of hands. You will learn to play all the hands you will encounter when playing Video Poker.

Optional prompts teach the best strategy for every hand dealt. A running tally of hands and winning combinations is kept for inspection. Take the pocket reference card with you to the casino. Do NOT depend on just luck or impulse when you can learn the winning strategy.

**\$1499** IBM 3.5" or 5.25"  
Apple II, Macintosh  
Commodore 64

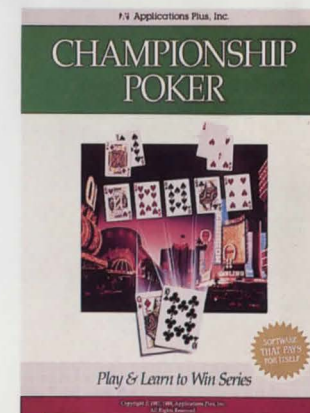

## CHAMPIONSHIP POKER

*Take a seat at the table!*

Championship Poker teaches and simulates the live action of today's poker game of preference—Hold 'em. Once considered the game of world champions, Hold 'em has spread from the casinos into those "friendly" poker games across the country. From learning exercises for the beginner to a high stakes elimination tournament for the master, Championship Poker invites you to take a seat at the table.

### **Is poker more than a game?**

You know it is; you feel a special excitement with each hand. This package captures that excitement and adds a foundation of knowledge. Use this knowledge to build your skill and feel the excitement grow.

**\$1499** IBM 3.5" or 5.25"  
Macintosh

# CRIBBAGE

*A game that has endured the test of time!*

Cribbage is a classic, fast moving game that originated in the early 1600's, yet remains very popular today.

Introduction, terms, practice hand and game strategy for the beginner • 2, 3, or 4 players • Variable playing speed • Single or multiple game competition • 61 or 121 point games • Storage of personal playing history.

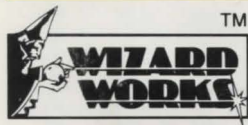

# BACKGAMMON

*One of the most popular games in history!*

Backgammon is easy to learn, yet challenges even the most experienced players.

- Help is available at any time • Computer can list legal moves and make moves for you • Game rules are automatically enforced • Doubling cube adds risk and excitement • Keyboard or mouse control • Custom-ize and save game options • Create your own computerized opponent with its own unique style of play.
